LGT Answers to shared control questions.

- 1.) I liked how easily the shared control flowed from teacher to student and ended with teacher. In the beginning ,the teacher is showing the kids how to move to the music. Then, the students would take turns sharing how they wanted to move and they seemed to be happy joining in . I love how the teacher was creative in getting the students to get their coats on by jumping to the cubbies.
- 2.) In our class, we have the students tell us how they would like to get to the tables. If a child says crawl like a bear then everyone crawls like a bear to the table.
- 3.) I would like to see our students participate in creative ways to move to music. We usually do more U tube videos that tell us how to move to the music.
