

Heather Carpenter

Where am I on the continuum?

My entire center would be on a directive climate. The High Scope Curriculum is not like any of the other curriculums we have used. In fact it is almost the complete opposite. We used center signs with people that children moved from center to center, keeping materials in the same area, Large group time was always teacher directed.

This is going to be a big change for us and for the children. We are going to have many discussions with the kids explaining how everything works. We will get there eventually!! In the past, our small group times were done during "work time". That way we could work with a smaller group of kids while the others were engaged in play.
