

## Jace's Viewpoint – Reading

#1 – Jace was a bit slow in the beginning but he joined in while watching a friend sitting near him. Jace & Bryant begin to do their own thing while also following the directions of Anna. Peter & Savannah were playing together also. Anna gives directions, then Beth gives directions. They all worked together each with a friend but were also following directions.

#2 – Our children have the opportunity to share and make decisions daily. They have a clothes pin they move upon entering the room every morning. This is the way they make their lunch choice. If they fail and forget to make their choice, a friend will usually remind them or after they sit down and then see another child enter the classroom and make their choice they will jump up and move their pin.

The weekly librarian is allowed to choose a book from the library shelf daily for one of us to read. Many times the librarian will ask some of the children to help decide upon a book to read.

We have a line up song that we sing several times a day in which every child in the room participates.

#3 – I love music so I'd like to do more singing, using the instruments we have in our classroom and include movement with the music. I have a small keyboard that I'd love to bring in to play and sing with the children and give them the opportunity to play it also.
