

HighScope Course Evaluations – End-of-Course Survey

In an effort to continually improve HighScope courses and instructors, we are asking everyone to participate in our course evaluation process. You will be given an opportunity to rate this course and facilitator at the end of the course and then again three months after the course. Your participation in completing these surveys will help us refine our course evaluation process so that it is both useful for you as a way to reflect upon your learning and useful for us in improving the course evaluation process and our training efforts overall. Your participation is voluntary, but strongly encouraged, and all personal identifying information will be removed from the results so that your responses can be kept anonymous.

We are providing you with a copy of the end-of-course evaluation so that you can read the survey items before beginning the course. You can keep these items in mind as you complete the course and even use the copy to keep notes if that is helpful for you. At the end of the course, we will review the items again. During the last week of the course, you will receive a link to the survey from research@highscope.org. You will use the link to access the survey and complete it. HighScope greatly appreciates your participation in our end-of-course survey.

In three months, you will receive an invitation to complete a different survey designed to measure the impact this course had on your practice.

If you have any questions about the survey, please contact Anthony at anielsen@highscope.org.

Thanks,

Jeff
