

Question: Where am I on the continuum and why?

Regarding a continuum scale, personally I feel I'm at a solid 9 out of 10. The course is going really smooth and well, and it's nice to be able to look back at the work I'm doing throughout this course. Being able to reflect and talk about how our children are doing along with other staff members is very comforting. I've learned a lot of different teaching styles and in which I was able to sharpen up my own methods to effectively teach the students. The material has been really helpful as well, and the pacing is nice to keep up with regarding a busy schedule. Overall, I'm very satisfied with how this course is going.
