

Try It Out: Assignment Instructions

To begin your assignment, please follow these initial directions:

First, save this file to your computer.

To save your work, click on “File” and then select “Save As.” Type your name as the file name (e.g., “Wk2JaneDoe.PDF”).

You **must** save your file as a .PDF or it will not be accepted.

Next, to complete the assignment, follow these directions:

1. Type your name in the box in the lower left corner of the next page.
2. Fill out the assigned items from the PQA:
 - Type your evidence in the space indicated.
 - Select the row scores by clicking in the appropriate box for each row.
 - Select the overall score for the item by clicking the circle above the score.
3. Then, save the file again. (If you don't, you will lose all your work.)
4. To upload your finished assignment, click on the Dropbox tab, then click the text that says “Upload File.” Click “Browse” to select the file from your computer, then click “Submit.”

I-D. Materials for sensory exploration are plentiful and accessible to infants and toddlers.

	Level 1 Indicators	Level 3 Indicators	Level 5 Indicators	Supporting Evidence/Anecdotes
Row 1	<input type="checkbox"/> All or most materials for children to see, touch, mouth, hear, smell, explore, and play with are made of <i>plastic</i> . Example: - Plastic toys include rattles, commercialized dollhouse and doll accessories, cars, trucks, musical instruments, and battery-operated toys.	<input type="checkbox"/> Less than half of the materials for children to see, touch, mouth, hear, smell, explore, and play with are made of <i>wood, metal, stone, fiber, paper, or natural materials</i> . Examples: - Wooden spoons, metal pans, plastic food, and empty food containers in house area. - Rocks in the sand. - Recycled materials in art area, with crayons, paper, and play dough. - Mainly plastic, commercialized materials in toy area.	<input type="checkbox"/> More than half of the materials for children to see, touch, mouth, hear, smell, explore, and play with are made of <i>wood, metal, stone, fiber, paper, and natural materials</i> . Examples: - Tin cans/lids, cooking utensils, spice bottles, metal measuring cups, small pans, shells, rocks, wooden spoons, blocks, spools, bottle brush, keys, fabrics, yarn, pumice, rubber balls, mirrors, newspaper, wax paper, foil. - Recycled materials, such as cardboard tubes, boxes. - Messy materials such as paint, play dough, clay, "goop," glue, sand, water.	
Row 2	<input type="checkbox"/> Materials for exploration and play are not safe. Examples: - Materials are torn, broken, or dirty. - Caregivers do not check to see if materials are torn, broken, or dirty. - Infants can reach small materials they can swallow.	<input type="checkbox"/> Materials for exploration and play are safe. Examples: - Some materials are checked for being torn, broken, or dirty, such as the toy area materials. - Some dirty materials are cleaned regularly, such as weekly. - Infant materials are disinfected weekly.	<input type="checkbox"/> Materials for exploration and play are safe and checked regularly. Examples: - Caregivers check for small or broken materials several times a week. - Broken or torn materials are discarded, and dirty materials are disinfected immediately and/or daily. - In mixed-age groups, infants and older infants are supervised around toddler materials.	CQ: What are your procedures for checking and sanitizing materials?

Row 3	<p><input type="checkbox"/> There are no creations by children that are visible to children.</p> <p>Example:</p> <ul style="list-style-type: none">- Displays are of adult-made or commercial materials or are hung out of children's sight.	<p><input type="checkbox"/> Some of children's creations are visible to children.</p> <p>Examples:</p> <ul style="list-style-type: none">- Children's paintings are hung low on cabinets.- In mixed-age rooms, wall space to hang children's creations is limited because of cribs; some creations are hung high due to cribs.	<p><input type="checkbox"/> Children's creations are hung and/or displayed where children can see and touch them.</p> <p>Examples:</p> <ul style="list-style-type: none">- Clay creations on low shelves.- Paintings or drawings with protective coverings on floor, wall, low bulletin boards, or low cabinets.	
Row 4	<p><input type="checkbox"/> Displays of children's creations consist of projects generated from adult ideas or copied from adult products.</p> <p>Examples:</p> <ul style="list-style-type: none">- All children's flower cutouts look the same.- All paper rabbits are put together the same way.	<p><input type="checkbox"/> Some displays of children's creations stem from children's interests and ideas.</p> <p>Examples:</p> <ul style="list-style-type: none">- Caregivers cut children's paintings into bugs for a bulletin board on insects.- Caregivers "fix" children's play dough snowmen after they are done working on them.	<p><input type="checkbox"/> All displays of children's creations stem from children's interests and ideas.</p> <p>Examples:</p> <ul style="list-style-type: none">- Children's pencil scribbles, clay sculptures, finger paintings, and glue creations are original.- Children's creations are left as they are by caregivers.	

II. SCHEDULES AND ROUTINES

Circle one indicator level for this item based on the scoring rules on page ix.

II-A. The overall daily schedule is predictable yet flexible.

1 2 3 4 5

Check here if not observed or reported.

	Level 1 Indicators	Level 3 Indicators	Level 5 Indicators	Supporting Evidence/Anecdotes
Row 1	<input type="checkbox"/> Daily events and caregiving routines are not organized; they occur randomly throughout the day or from one day to the next.	<input type="checkbox"/> The day is organized around caregiving routines: <ul style="list-style-type: none">• Feeding and mealtime• Bodily care• Naptime Examples: <ul style="list-style-type: none">– Sometimes caregivers have an art project or take the children outside when they have time.– Sometimes caregivers are not consistent about when parts of the day occur.– Sometimes caregivers of mixed-age children or toddlers use the names of the parts of the routine.	<input type="checkbox"/> The day is organized around regular daily events: <ul style="list-style-type: none">• Arrival and departure• Choice time• Group time for mobile infants and toddlers• Outside time The day includes caregiving routines: <ul style="list-style-type: none">• Feeding and mealtime• Bodily care• Naptime Examples: <ul style="list-style-type: none">– The routine is consistent yet flexible, developed around individual children's bodily rhythms. The schedule consistently includes each event and routine.– Parents and children are notified ahead of time, if possible, if any part of the day will be different, such as that children will go to the gross-motor room instead of outside because it is raining.– Caregivers of mixed-age children and toddlers use names of parts of the routine throughout the day: "In a few minutes it will be time to clean up"; "Ellie, remember that outside time comes next, after we go to the bathroom."	

II. SCHEDULES AND ROUTINES

II-A. (continued)

	Level 1 Indicators	Level 3 Indicators	Level 5 Indicators	Supporting Evidence/Anecdotes
Row 2	<input type="checkbox"/> There is no posted schedule.	<input type="checkbox"/> There is a posted schedule for parents or for children. Examples: <ul style="list-style-type: none">- A brief routine is posted on the teachers' cabinet and a detailed plan on the parent board.- A daily routine chart made up of generic pictures of each part of the routine is posted on a wall for children to see.	<input type="checkbox"/> There is a posted schedule for parents to review and a pictorial routine posted low for older infants and toddlers to see. Examples: <ul style="list-style-type: none">- Caregivers take pictures of the children during each part of the routine and post them with the names of each part of the schedule.- Kylee crawls over to the wall and points to a picture of herself eating at the table at lunch time.	<i>Note:</i> In an infant-only room, check level 5 if the schedule is posted for parents. (A pictorial routine is not necessary for infants.)
Row 3	<input type="checkbox"/> Teachers do not refer to the routine.	<input type="checkbox"/> Sometimes teachers refer to and talk about the parts of the routine with children. Example: <ul style="list-style-type: none">- Teachers tell children about cleanup and outside time but do not talk about small- or large-group activities.	<input type="checkbox"/> Teachers refer children to and talk about the routine throughout the day. Examples: <ul style="list-style-type: none">- "Omaria, let's go look at what is coming next after snack."- While rocking and feeding Nathan, the caregiver says, "When you are done with your bottle, it will be naptime."- Since it is raining, at breakfast the teachers talk with the children about going to the gross-motor room instead of going outside.	

II. SCHEDULES AND ROUTINES

II-A. (continued)

	Level 1 Indicators	Level 3 Indicators	Level 5 Indicators	Supporting Evidence/Anecdotes
Row 4	<p><input type="checkbox"/> The daily schedule is the same for all children.</p> <p>Examples:</p> <ul style="list-style-type: none">– Children are kept awake when they are falling asleep before naptime.– All children make transitions at the same time.	<p><input type="checkbox"/> The daily schedule sometimes flexes to accommodate children’s individual needs.</p> <p>Examples:</p> <ul style="list-style-type: none">– A caregiver brings out a cot for a child who has fallen asleep during choice time.– Children line up all at the same time to wash their hands for breakfast and lunch, but take turns brushing their teeth and going to the bathroom during choice time.	<p><input type="checkbox"/> The daily schedule flexes throughout the day to accommodate each child’s individual needs, rhythms, and temperament.</p> <p>Examples:</p> <ul style="list-style-type: none">– Grace eats some lunch, lies down on her cot, and falls asleep while others eat, play, and wash up.– An infant begins crying earlier than his scheduled feeding and the caregiver gives him a bottle.– At naptime, some children fall right to sleep and others look at books until they fall asleep.– Caregivers overlap activities to allow children who are finished with an activity to start the next activity while others finish what they are doing.– As children are transitioning back to the room at the end of outside time, a caregiver allows children to observe some ducks flying by for a few minutes.– A toddler does not want to go to the bathroom, so the caregiver says she will check the other children first and then it will be his turn.	

II. SCHEDULES AND ROUTINES

II-A. (continued)

	Level 1 Indicators	Level 3 Indicators	Level 5 Indicators	Supporting Evidence/Anecdotes
Row 5	<p><input type="checkbox"/> Children do not initiate or freely explore actions, materials, and/or other people.</p> <p>Examples:</p> <ul style="list-style-type: none">– Nonsleeping children are confined in playpens, swings, infant seats, walkers, or cribs.– Children who fall asleep in a swing or seat are not taken out and put in a crib.– Infants are left in highchairs for long periods of time after being fed, even when crying.– Children are moved from one type of infant seat to another (Exersaucer to swing to highchair).– Mobile children are left in tables with built-in seats until caregivers can get them out.– Toddlers mostly do adult-directed activities.	<p><input type="checkbox"/> During some parts of the day (e.g., choice time, outside time) children initiate and freely explore actions, materials, and/or other people.</p> <p>Examples:</p> <ul style="list-style-type: none">– Sometimes children remain in highchairs, cribs, or swings for periods of time, but children are taken out when they cry.– Some children spend time in Exersaucers, walkers, bouncy seats.– At choice time and outside time, toddlers explore freely, but during art activities and circle time they follow the caregivers' instructions.	<p><input type="checkbox"/> Throughout the day children initiate and freely explore actions, materials, and other people.</p> <p>Examples:</p> <ul style="list-style-type: none">– During awake time infants and nonmobile infants are given treasure baskets and/or a variety of materials to explore.– Caregiver lays Sophia on a blanket on the floor in front of a mirror while the toddlers eat lunch.– Landon, an older infant, explores wooden spoons and tin cans while sitting on the floor.– Children spend <i>less than 75 minutes</i> total per day in bouncy seats, Exersaucers, walkers, swings, infant seats, or playpens; or in cribs or highchairs when not sleeping or eating.– Crying children are removed from seats immediately.– Highchairs or bouncy seats are used with infants as "safe places" for very short periods of time.– At group times older infants and toddlers participate at their own pace and developmental levels.	

II. SCHEDULES AND ROUTINES

Circle one indicator level for this item based on the scoring rules on page ix.

II-C. Choice times (play times, awake times) focus on child-initiated exploration and play.

1 2 3 4 5
 Check here if not observed or reported.

	Level 1 Indicators	Level 3 Indicators	Level 5 Indicators	Supporting Evidence/Anecdotes
Row 1	<input type="checkbox"/> There is no daily choice or play time for children, or choice time lasts all day. Examples: <ul style="list-style-type: none"> – For most of day, infants sit in Exersaucers, bouncy seats, and swings, and toddlers sit at tables. – Choice time is all day, and children wander and conflicts arise because nothing else is scheduled. 	<input type="checkbox"/> Sometimes choice or play time is a part of the day for children, and/or choice time is too brief or too long. Examples: <ul style="list-style-type: none"> – Infants are confined to swings and seats during choice time. – Choice time is posted on the schedule but not carried out. – Toddler choice time is too brief (15–20 minutes) or too long (children get restless and conflicts arise). 	<input type="checkbox"/> Choice or play time is always a part of the day for children, and children’s actions determine the length of choice time. Examples: <ul style="list-style-type: none"> – Infants are engaged with caregivers or a variety of materials during awake times. – Choice time allows toddlers to engage in pretend play. – Caregivers end choice time early when children lose interest or begin wandering. 	<p>Note: If level 1 is checked, score a 1 and leave the remaining rows blank.</p>
Row 2	<input type="checkbox"/> Children make no choices during choice/play time. Examples: <ul style="list-style-type: none"> – Children are confined in playpens, swings, bouncy seats. – Children mainly respond to or carry out adult-initiated activities such as teacher-planned projects or activities at the art table, block area, and/or toy table. – Children watch television and/or videos. 	<input type="checkbox"/> Children make some choices during choice/play time. Examples: <ul style="list-style-type: none"> – At some point during choice time each child participates in a planned art activity. – Only some areas are available — no sand or water. – A toddler wants the markers but the caregiver tells him, “Not today.” – Sometimes infants are placed in a seat when they could be placed on the floor to freely move their bodies and explore materials laid near them. 	<input type="checkbox"/> Children make many choices and carry out their own exploration and play initiatives during choice/play time; they decide <ul style="list-style-type: none"> • What to explore or play with • How to explore or play • Where to explore and play (all areas available) • How to move Examples: <ul style="list-style-type: none"> – Mobile and nonmobile infants are given a variety of materials to explore and play with. – While sitting beside her caregiver, Yolanda (an infant) chooses different items from her treasure basket to mouth — a bottle brush, large shell, wooden spoon, tin can. – Children pull materials off the shelf and use them in their own ways. – Toddlers Mariah and Eva play with dolls in the house area while Tyler and Mario use cars in the block area. – Older toddlers follow through on their plans. 	

II. SCHEDULES AND ROUTINES

II-C. (continued)

	Level 1 Indicators	Level 3 Indicators	Level 5 Indicators	Supporting Evidence/Anecdotes
Row 3	<p>In rooms with older toddlers</p> <p><input type="checkbox"/> Older toddlers do not converse with caregivers about their choices (plan) or talk about what they did (recall) at any time during the day.</p>	<p>In rooms with older toddlers</p> <p><input type="checkbox"/> Older toddlers sometimes converse with caregivers about their choices (plan) and/or talk about what they did (recall) at some time during the day.</p> <p>Examples:</p> <ul style="list-style-type: none">- Not all children in this age range are asked about their plans or what they did during the day.- Caregivers ask children what they want to do, but do not talk with them about what they did during the day.- Caregiver says, "Jerrica, you chose to play with the babies today."	<p>In rooms with older toddlers</p> <p><input type="checkbox"/> Older toddlers converse with caregivers about their choices (plan) and talk about what they did (recall) during the day.</p> <p>Examples:</p> <ul style="list-style-type: none">- Caregivers converse with children as they select their activity at the beginning of choice time: "Zelda, what would you like to play with today?"- As caregivers clean up with toddlers, they comment on what they saw children using during choice time.- At lunch time caregivers ask each child what he or she played with at choice time.- At lunch time, caregivers talk with children about what they did at outside time.- Caregivers verbally plan and recall with 2-year-olds. Later in the year, when children are ready, a formal planning and recall time is added to the daily schedule.	<p><input type="checkbox"/> Mark "N/A" if all children are younger than 24 months.</p> <p>CQ: How do you plan and recall with your older toddlers?</p>

II-E. Transitions flow smoothly from one interesting experience to the next.

1 2 3 4 5

Check here if not observed or reported.

	Level 1 Indicators	Level 3 Indicators	Level 5 Indicators	Supporting Evidence/Anecdotes
Row 1	<input type="checkbox"/> Children do not have choices at transition times. Examples: <ul style="list-style-type: none">– Children are told, all at one time, to stop playing and start cleaning up.– All children move from one activity to the next in whole groups.	<input type="checkbox"/> Children sometimes have choices at transition times. Examples: <ul style="list-style-type: none">– Children can choose to bring a stuffed animal to a diaper change.– Children sing songs while waiting to wash their hands.– Some children have a choice about what to clean up.– Sometimes children have a choice on ways to move their bodies to the next part of the day.	<input type="checkbox"/> Children make choices during transition times. Examples: <ul style="list-style-type: none">– Children choose how to move from one part of the room to another, what to clean up, and how to put it on shelves.– Kyra continues to work on her painting while other children who are done with group time wash their hands.– Jayden and Paige choose to crawl like spiders to the lunch table.	
Row 2	<input type="checkbox"/> Children are moved abruptly by caregivers from one event to the next. Example: <ul style="list-style-type: none">– When it is feeding time, infants are picked up and put in their seats.	<input type="checkbox"/> Children sometimes are told by caregivers what comes next. Examples: <ul style="list-style-type: none">– When choice time is almost over, the caregiver gives a warning for cleanup time.– At outside time children are picked up and told that it is time to go in.– Gabrielle, an infant, is picked up for lunch and put in a highchair without a warning.– Toddlers are given a warning that they will need to wash their hands soon for lunch.	<input type="checkbox"/> Throughout the day children are told by caregivers what comes next. Examples: <ul style="list-style-type: none">– Caregiver tells infant that it is time for his bottle and talks to him about what she is doing as she warms the bottle.– Caregiver announces to toddlers that cleanup time will start when they hear the music.	

II. SCHEDULES AND ROUTINES

II-E. (continued)

	Level 1 Indicators	Level 3 Indicators	Level 5 Indicators	Supporting Evidence/Anecdotes
Row 3	<p><input type="checkbox"/> Children wait for events and/or caregiving routines to begin.</p> <p>Examples:</p> <ul style="list-style-type: none">- Toddlers wait in line for all children before moving to next activity.- Caregivers do not start activity until all children are sitting and ready for circle time.	<p><input type="checkbox"/> Children sometimes move at their own pace from one event or caregiving routine to the next.</p> <p>Examples:</p> <ul style="list-style-type: none">- Sometimes caregivers plan for children's transitions, such as asking children to move to the bathroom like dogs.- Infants and mobile infants are put in strollers and carried in and out to the playground, even though the door to the playground is across the hall.- Sometimes children are hurried to the next part of the day.	<p><input type="checkbox"/> Children move at their own pace from one event or caregiving routine to the next.</p> <p>Examples:</p> <ul style="list-style-type: none">- Caregivers overlap activities to allow children to change activities at their own pace.- Caregivers plan different ways for children to transition, such as moving when their names are called, moving like animals, singing.- Caregivers record transition plans on their daily lesson plans.- When coming in from outside time, crawlers, toddlers, and walkers move their own bodies into the room from the playground.	
Row 4	<p>In mixed-age and toddler rooms</p> <p><input type="checkbox"/> Children do not participate in cleanup.</p>	<p>In mixed-age and toddler rooms</p> <p><input type="checkbox"/> Children are directed and/or rushed through cleanup.</p> <p>Examples:</p> <ul style="list-style-type: none">- Caregiver places object in child's hands and directs her to put it on shelf.- Caregiver takes toy away from child and places it on shelf the correct way.- Teachers start cleaning up before announcing cleanup time and then finish cleaning up with some of the children.	<p>In mixed-age and toddler rooms</p> <p><input type="checkbox"/> Children clean up in their own manner/pace and receive caregivers' encouragement and support.</p> <p>Examples:</p> <ul style="list-style-type: none">- Children can choose what to put away.- Caregiver says, "You put all the cars away" when Harrison shows her the filled basket of cars.- Caregivers allow time for children to participate in cleanup: caregiver holds the plastic jar while Dylan picks the lids up one by one and puts them in the jar.- During choice time caregivers encourage and assist children in putting toys away before they get out something else.- During nap or after children leave, caregivers straighten shelves and complete cleanup.	<p><input type="checkbox"/> Mark "N/A" if it is an infant-only room.</p>

II. SCHEDULES AND ROUTINES

Circle one indicator level for this item based on the scoring rules on page ix.

II-F. Feedings and mealtimes are child centered and leisurely.

1 2 3 4 5

Check here if not observed or reported.

	Level 1 Indicators	Level 3 Indicators	Level 5 Indicators	Supporting Evidence/Anecdotes
Row 1	<input type="checkbox"/> Infants drinking from a bottle are not held. Examples: <ul style="list-style-type: none"> - Infant is lying down, drinking from a propped-up bottle. - While feeding another child who is lying on the floor, caregiver holds an infant, who is drinking from a bottle propped up next to him. 	<input type="checkbox"/> Sometimes infants drinking from a bottle are held by a caregiver. Examples: <ul style="list-style-type: none"> - When an infant needs to be fed, the director feeds her. - Children who can hold their own bottles feed themselves and sometimes walk around the room. 	<input type="checkbox"/> Infants drinking from a bottle are always held by a primary caregiver and receive the caregiver's close attention. Examples: <ul style="list-style-type: none"> - Caregiver talks with infant while feeding her. - Desmond's primary caregiver rocks and sings to him as he drinks from his bottle. 	<input type="checkbox"/> Mark "N/A" if there are no bottle-fed children.
Row 2	<input type="checkbox"/> Parents (whose schedules permit) do not nurse or bottle-feed their children at the center, or are discouraged from doing so.	<input type="checkbox"/> Parents (whose schedules permit) occasionally nurse or bottle-feed their children at the center. Examples: <ul style="list-style-type: none"> - There is no separate space for nursing/bottle-feeding. - Parent(s) sometimes can nurse/bottle-feed their child. 	<input type="checkbox"/> Parents (whose schedules permit) regularly nurse or bottle-feed their children at the center and are encouraged to do so. Examples: <ul style="list-style-type: none"> - There is a separate, quiet area with room for two parent-child pairs to nurse/bottle-feed. - Caregivers make sure they talk with parent(s) who nurse/bottle-feed every day to coordinate the timing of the feeding. 	<input type="checkbox"/> Mark "N/A" if there are no nursing/bottle-fed children. CQ: Are parents allowed to nurse and/or bottle-feed their infants at the center? If yes, how often? Occasionally? On a regular basis?
Row 3	<input type="checkbox"/> Children do not feed themselves. Examples: <ul style="list-style-type: none"> - Caregivers feed children to make cleanup easier. - Caregivers hold infant bottles even if infant is able to hold the bottle. 	<input type="checkbox"/> Sometimes children feed themselves. Examples: <ul style="list-style-type: none"> - Caregivers only allow children who don't make a mess to feed themselves. - Toddlers feed themselves, but caregivers feed older infants. 	<input type="checkbox"/> Children are always encouraged to feed themselves. Examples: <ul style="list-style-type: none"> - Spoon-fed infants have their own spoon to hold as caregiver feeds them: Tayon dips his spoon into the bowl of carrots and the caregiver says, "Tayon, you're using your spoon to eat with." - Allie, an infant, holds her bottle while her caregiver rocks her and says, "Allie, you are holding your own bottle today." - As Tanya, a toddler, spoons corn onto her plate, her caregiver asks her to pass the bowl to Jamal when she is finished; when Tanya does so, her caregiver says, "Thank you, Tanya, for passing Jamal the corn." 	

II. SCHEDULES AND ROUTINES

II-F. (continued)

	Level 1 Indicators	Level 3 Indicators	Level 5 Indicators	Supporting Evidence/Anecdotes
Row 4	<p><input type="checkbox"/> Children have no choice about what and/or how much to eat.</p> <p>Examples:</p> <ul style="list-style-type: none">- Caregivers decide what children will eat and feed them.- As a caregiver feeds an older infant, the infant turns her head, but the caregiver continues to feed her.	<p><input type="checkbox"/> Sometimes children have a choice about what and/or how much to eat.</p> <p>Examples:</p> <ul style="list-style-type: none">- At breakfast children can choose what they want, but at lunch they have to eat what the caregiver gives them.- Kylee is told she cannot leave the table until she eats all her green beans.	<p><input type="checkbox"/> Children have a choice about what and how much to eat.</p> <p>Examples:</p> <ul style="list-style-type: none">- Hailey eats her grapes before she eats her muffin at breakfast.- E.J. drinks all his milk and then eats his cereal.- Penny leaves some food on her plate and says, "I done." The caregiver answers that she can go throw her plate away and wash up.	<p>CQ: Do children have choices about what they want to eat at mealtimes?</p>
Row 5	<p><input type="checkbox"/> Feedings and/or mealtimes are rushed.</p> <p>Example:</p> <ul style="list-style-type: none">- Caregivers quickly remove lunch items from table while children are still eating.	<p><input type="checkbox"/> Sometimes feedings and/or mealtimes are unhurried.</p> <p>Example:</p> <ul style="list-style-type: none">- At breakfast children eat at their own pace, but at lunch children are rushed to finish so they can lie down for their nap.	<p><input type="checkbox"/> Feedings and mealtimes are leisurely. Children eat at their own pace and spend varying amounts of time eating.</p> <p>Examples:</p> <ul style="list-style-type: none">- Caregivers initiate conversations with children.- Caregivers read a book while children eat, to keep their attention until the majority of children are done eating.	
Row 6	<p><input type="checkbox"/> Children rarely interact with caregivers during mealtimes.</p> <p>Examples:</p> <ul style="list-style-type: none">- Caregivers are busy with other duties.- Caregivers supervise mealtimes but do not join children.	<p><input type="checkbox"/> Children interact with caregivers briefly during mealtimes.</p> <p>Examples:</p> <ul style="list-style-type: none">- Caregivers ask children if they want more of something.- Caregivers sometimes sit with children or behind them, while directing children to eat their food.- One teacher talks with children about their day, while the other teacher only asks children if they want more to eat or are finished.	<p><input type="checkbox"/> Children and caregivers show pleasure in their interactions and communications with one another while seated together during mealtimes.</p> <p>Examples:</p> <ul style="list-style-type: none">- Caregivers smile, observe, and listen attentively to children.- Caregivers converse with children.- Caregivers leave the table as needed to get items or to help a child.	

II. SCHEDULES AND ROUTINES

II-F. (continued)

	Level 1 Indicators	Level 3 Indicators	Level 5 Indicators	Supporting Evidence/Anecdotes
Row 7	<input type="checkbox"/> All children are fed/eat on schedule whether or not they are hungry.	<input type="checkbox"/> Sometimes children are fed/eat when they are hungry, even when their hunger occurs outside a designated feeding or mealtime. Example: <ul style="list-style-type: none">- Children who come in late in the morning can get a snack, but children who get hungry before lunch have to wait.	<input type="checkbox"/> Children are fed/eat when they are hungry, even when their hunger occurs outside a designated feeding or mealtime. Examples: <ul style="list-style-type: none">- Infants eat on demand.- Caregivers have extra fruit, cereal, or crackers on hand and give a small snack to children who get hungry outside of mealtimes.	<i>CQ:</i> Are children fed when they are hungry, even when their hunger occurs outside a designated feeding or mealtime? If yes, how often? Sometimes? Regularly?
Row 8	In mixed-age and toddler rooms <input type="checkbox"/> Children do not participate in setup or cleanup of meals.	In mixed-age and toddler rooms <input type="checkbox"/> Sometimes children participate in setup and/or cleanup of meals. Example: <ul style="list-style-type: none">- Children help with cleanup but not setup.	In mixed-age and toddler rooms <input type="checkbox"/> Children participate in setup and cleanup of meals and receive support for doing so. Examples: <ul style="list-style-type: none">- Henry throws his cup in the trash, and caregiver says, "Thank you for throwing your cup away!"- Terrance helps put plates and forks in the middle of the table for lunch.	<input type="checkbox"/> Mark "N/A" if it is an infant-only room.

II. SCHEDULES AND ROUTINES

Circle one indicator level for this item based on the scoring rules on page ix.

II-G. Group times for mobile infants and toddlers are fluid and dynamic and focus on children’s actions, ideas, and interests.

1 2 3 4 5

Check here if not observed or reported.

Notes: (a) Group times are defined as both small- and large-group gatherings that generally are planned but occasionally are spontaneous. (b) Group times consist of activities with hands-on materials or music and movement activities.

	Level 1 Indicators	Level 3 Indicators	Level 5 Indicators	Supporting Evidence/Anecdotes
Row 1	<input type="checkbox"/> For mobile infants and toddlers, there are no daily group times. Examples: <ul style="list-style-type: none"> – Children are confined in seats. – Free play continues all day in between caregiving routines. 	<input type="checkbox"/> For mobile infants and toddlers, sometimes group times are a regular part of the day. Examples: <ul style="list-style-type: none"> – Group times do not occur every day. – Only whole-group times are scheduled. 	<input type="checkbox"/> For mobile infants and toddlers, group times (small and large groups) are a regular part of the day. Examples: <ul style="list-style-type: none"> – Children paint shells for small-group time. – Before lunch all the children gather together and sing songs. – During choice time, a small group of children play with balls and buckets. – Children wave scarves to music during whole-group times. 	<input type="checkbox"/> Mark “N/A” if there are only infants aged 0–6 months in room, and leave all remaining rows blank. <i>Note:</i> If level 1 is checked, score a 1 and leave the remaining rows blank.
Row 2	<input type="checkbox"/> Children make no choices during group time. Examples: <ul style="list-style-type: none"> – Caregivers make choices for children on how to use materials. – Children sing songs as instructed by caregivers. 	<input type="checkbox"/> Children make some choices during group time. Examples: <ul style="list-style-type: none"> – Caregiver allows Amari to choose the blue car from his basket but says he has to drive the car instead of flying it around. – Ciara chooses “Wheels on the Bus” and wants to sing the “mommies” verse first, but the caregiver tells her to “sing it the way the verses go.” 	<input type="checkbox"/> Children make many choices during group time: <ul style="list-style-type: none"> • How to explore and use materials • How to communicate • Where to sit and/or stand • How to move • What to sing • How to sing Examples: <ul style="list-style-type: none"> – At small-group time, caregivers give children a set of materials to use in any way they want. – Children move their bodies to music in any way they want. – Children can sit any way they want for large-group activities. 	

II. SCHEDULES AND ROUTINES

II-G. (continued)

	Level 1 Indicators	Level 3 Indicators	Level 5 Indicators	Supporting Evidence/Anecdotes
Row 3	<p><input type="checkbox"/> Children do not use the materials provided in their own manner.</p> <p>Examples:</p> <ul style="list-style-type: none">- Caregivers have children make a product, such as a rabbit or flower.- Children move their bodies to music as the caregiver instructs them to or listen to directions on the CD.	<p><input type="checkbox"/> Sometimes children use the materials provided in their own manner.</p> <p>Example:</p> <ul style="list-style-type: none">- At small-group time children may use the Duplos any way they want, but during large-group activities, the children have to sing the songs the way the teacher leads them.	<p><input type="checkbox"/> All children use the materials provided in their own manner.</p> <p>Examples:</p> <ul style="list-style-type: none">- While using water and paintbrushes, Natalia bangs her brush on the table.- While using shakers to music, Linus waves the shaker in the air and imitates how other children are moving their shakers.- Ben moves his body vigorously to the fast music.	
Row 4	<p><input type="checkbox"/> Children's actions and interests do not determine the length of group time.</p> <p>Example:</p> <ul style="list-style-type: none">- Caregivers insist that children stay with an activity until all children are done.	<p><input type="checkbox"/> Children's actions and interests sometimes determine the length of group time.</p> <p>Example:</p> <ul style="list-style-type: none">- Children can leave the table when they are finished with small-group activities, but all children have to stay and sing for large-group activities.	<p><input type="checkbox"/> Children's actions and interests determine the length of group time. Children explore and play with materials for varying amounts of time.</p> <p>Examples:</p> <ul style="list-style-type: none">- Toddlers come and go freely from one small group to the other.- Children have choices when they do not want to participate in the large-group activity.- Caregivers stop group times when children begin to lose interest.	

II. SCHEDULES AND ROUTINES

Circle one indicator level for this item based on the scoring rules on page ix.

II-H. Outside times provide nature-based sensory-motor learning opportunities.

1 2 3 4 5

Check here if not observed or reported.

[Notes: (a) If outside time is scheduled but not observed, score at level 1. (b) Where extreme weather conditions or safety considerations prevent the regular use of the outdoor play space, a large and open indoor space, such as a gross-motor room, may be used as a substitute. (c) If the observation occurs on a day that is atypical due to unusual weather or other special conditions, check “not observed or reported.”]

	Level 1 Indicators	Level 3 Indicators	Level 5 Indicators	Supporting Evidence/Anecdotes
Row 1	<input type="checkbox"/> There is no daily outside time.	<input type="checkbox"/> Sometimes outside time is a part of the day for some children Example: – Nonmobile infants are not taken outside, but mobile infants and toddlers go outside when there is enough time before lunch.	<input type="checkbox"/> Outside time is a part of each day for all children. Examples: – Caregivers take infants outside every day. During cold weather, infants are bundled up and taken for a stroll outside, and mobile infants and toddlers go out for brief amounts of time. – On a hot day, caregivers may take nonmobile infants out and place them on a blanket in the shade while mobile infants and toddlers play in the shade or go in the sprinkler.	Note: If level 1 is checked, score a 1 and leave the remaining rows blank.
Row 2	<input type="checkbox"/> Children do not have choices during outside time. Examples: – For infants and nonmobile children, riding in a stroller is the only outdoor activity. – Toddlers only go on walks or play teacher-led games.	<input type="checkbox"/> Children have some choices during outside time. Examples: – Sometimes infants are placed on a blanket in the shade. – Toddlers can ride tricycles, climb on a climber, and play with balls.	<input type="checkbox"/> Children have many choices during outside time. Examples: – Children may roll, creep, crawl, cruise, toddle, walk, climb, run, pedal, dig, paint, pretend, build, splash, converse, ride, swing, slide, push, pull, get under or into, pretend.	

II. SCHEDULES AND ROUTINES

II-H. (continued)

	Level 1 Indicators	Level 3 Indicators	Level 5 Indicators	Supporting Evidence/Anecdotes
Row 3	<p><input type="checkbox"/> When outdoors, caregivers do not encourage children to explore materials with all their senses.</p> <p>Examples:</p> <ul style="list-style-type: none">- Grass is the only material available to explore.- Caregivers do not bring out portable materials.	<p><input type="checkbox"/> When outdoors, caregivers encourage children to explore some materials with all their senses.</p> <p>Examples:</p> <ul style="list-style-type: none">- Nonmobile infants do not use sand and water, but are given toys to explore outside while lying on a blanket.- Sometimes caregivers have toddlers play on the tricycles only, or direct them to stay on the blacktop, such as after it rains.	<p><input type="checkbox"/> When outdoors, caregivers encourage children to explore natural and play materials with all their senses.</p> <p>Examples:</p> <ul style="list-style-type: none">- Children pick up, smell, carry, and drop sticks, large stones, leaves, and dandelions.- They can play in sand and/or water, crawl on grass.- Caregivers bring out materials for children to use and/or lie on, such as blankets, mats, balls, bats, shovels, buckets, bubbles, blocks, and bikes.- Children can go anywhere on the playground and use any of the materials available.	
Row 4	<p><input type="checkbox"/> When outdoors, children do not interact or play with caregivers.</p> <p>Example:</p> <ul style="list-style-type: none">- Caregivers supervise children for safety but do not get involved in their play.	<p><input type="checkbox"/> When outdoors, children sometimes interact and play with caregivers.</p> <p>Example:</p> <ul style="list-style-type: none">- Caregivers supervise children for safety and sometimes get involved in their play, such as pushing them on the swings.	<p><input type="checkbox"/> When outdoors, children interact and play with caregivers.</p> <p>Examples:</p> <ul style="list-style-type: none">- Caregivers supervise children for safety and get involved in their play.- Caregiver plays chase with toddlers Sammy and Nevaeh.- Caregiver sits on the ground with Emani, a mobile infant, and rolls a ball back and forth to her.- A small group of toddlers push their feet through the sand with their caregiver.	

II. SCHEDULES AND ROUTINES

II-H. (continued)

	Level 1 Indicators	Level 3 Indicators	Level 5 Indicators	Supporting Evidence/Anecdotes
Row 5	<p>In infant and mixed-age rooms</p> <p><input type="checkbox"/> Nonmobile and mobile infants spend all their outside time in playpens, carriages, strollers, swings, or wagons.</p> <p>Example:</p> <ul style="list-style-type: none">– Every day Mariah walks the infants she cares for around the setting in a stroller.	<p>In infant and mixed-age rooms</p> <p><input type="checkbox"/> Nonmobile and mobile infants spend some of their outside time in playpens, carriages, strollers, swings, or wagons.</p> <p>Example:</p> <ul style="list-style-type: none">– Every other day, caregivers take the children for a walk in the stroller(s).	<p>In infant and mixed-age rooms</p> <p><input type="checkbox"/> Nonmobile and mobile infants spend little or none of their outside time in playpens, carriages, strollers, swings, or wagons.</p> <p>Examples:</p> <ul style="list-style-type: none">– Strollers are used only in special situations, such as when taking nonmobile infants for a walk, transporting children in and out of the setting, or going out in very cold weather.– When outdoors, infants are placed on blankets in the shade to explore and move their bodies; mobile infants can crawl, scoot, and roll around the playground.	<p><input type="checkbox"/> Mark “N/A” if it is a toddler-only room.</p>
