

Classroom Name: Classroom 3

Date: May 1st, 2023

Adults: Nour & Amira

Greeting Time: Nour: Greet parents and children as they arrive and encourage children to wash their hands.

Child Message: 1. Happy May Day! Let's have fun playing and exploring today!

2. Who is absent today?

Books: Nour & Amira- will support choosing and reading books together with the children on the rug. We will encourage the children to pick their favorite books and enjoy reading them together. We will also help them learn how to handle books carefully and turn the pages gently.

Large Group Time: We will sing songs together and let the children pick which song they want to sing next. Sensory Play: We will set up a table with different materials for the children to play with, and they can choose which one they want to explore. Story Time: We will read two books to the children and let them pick which one they want to hear again or act out with puppets. Outdoor Play: We will provide the children with two balls or soft objects to play with outside, and they can choose which one they want to use.

Planning Time: Nour: Set up a sensory table or area with different materials (such as sand, water, or playdough) and provide children with different tools and containers to explore the materials.

Amira: Color sorting planning: Provide different colored objects, like blocks or toys, and let the children sort them by color. Encourage them to talk about the colors and count how many objects they have of each color.

Work Time: Set up a table with playdough and different tools. Encourage children to explore the playdough and create different shapes and designs with the tools. Support them in cleaning up the playdough and tools as they finish playing.

Clean-up: Use a clean-up song or rhyme to signal the start of clean-up time. Sing or say it together with the children while picking up toys and materials. Encourage them to help and praise them for their efforts.
