### A Breakthrough Worship Service

Hello, I am Dakijah freeman, and I reside in Opelika, Alabama. The church worship service I observed started on August 28, 2022; the time was 10:30 am, and the place of worship service resided in Valley, Alabama. I am re-watching the service live on Facebook for a recap of the service. Even though the worship service was good in person, I was glad to be able to rewatch on live. The keynote speaker at the church worship service was Pastor Torrance Rudd. I chose the church worship service event because I had to leave early during the preaching, allowing me to watch what I missed.

Pastor Rudd dressed appropriately in his suit and black pants for the occasion. He began his sermon with a prayer and scripture to start his speech. Pastor Rudd used God's word to gather each member's attention to his address. His speech moved the congregation to learn about being determined to break through. "Consistently seek God, and he will show up and give you break through," was the critical point of his speech. During the worship service, he did not stay in one tone, and the holy spirit moved him to move the congregation. The worship service ended with a strong message from God, a reminder that "the God of breakthrough is on our side."

As one of the congregations listening to the service, I was moved through the message, knowing God was on my side through the breakthrough. The way he delivered his speech and made sure we understood every key point kept me engaged. His tone was not misinterpreted; it was more of trying to help save souls. He did not use any extensive vocabulary, and he used

enough words to keep our attention throughout the entire service. As mentioned in the first paragraph, I had to leave early because my daughter was sleepy. Overall, while re-watching the service live, pastor Rudd delivered a strong message that was well needed.
