

## Complete Creation AP202

*Instructor: Various Scientists*

### I. Course Description

This is a video series by eminent creation scientists: Ian Juby, Carl Kerby, Dr. Robert Carter, Dr. Bruce Malone, Dr. John Morris, and Laurence Tisdall. They discuss many aspects of the creation-evolution debate including the fossil record, the flood of Noah, “missing links” men and dinosaurs, and evidence for a young earth.

### II. Course Objectives

As a result of taking this class, the student should be able to:

- A. Give a reasoned argument for a young earth
- B. Give a reasoned argument for a literal six-day creation
- C. Understand the importance of not compromising Genesis

### III. Course Requirements

#### A. Required Reading:

Watch the video sessions and fill in the related material

#### B. Recommended Reading:

*Censored Science*, Bruce Malone

*Already Gone*, Ken Ham

*Already Compromised*, Ken Ham

*One Race, One Blood*, Ken Ham & Charles Ware

### IV. Tests & Grading

There are two lessons per unit, and then a test at the end of each unit. The tests will be graded on a percentage basis, with 80% the minimum score for a passing grade. Scores less than 80% will require the student to repeat the lessons pertaining to the test.

#### Note of Encouragement:

This is a topic of utmost importance. From the earliest ages, children are taught in public schools that evolution is scientific fact. We have to be able to give an answer to every man that asks us a reason for the hope that lies within us. People will be shocked when you can give reasoned and logical explanations when discussing creation vs evolution. This study will both encourage you and increase your faith, and give you confidence in witnessing.
