Describe the Persons the Program Plans to Serve	Describe Any Possible Risks - if there are no risks in this area please state that there is no risk	Describe the Plan to Reduce the Risk to Persons Served by the Program
6. Need for Specialized Programs: Persons served have access to specialized programs as needed and referred.	There are no risks.	There are no risks.
7. Specific Staff Training for Individual Needs: Independent Living Services may provide services to persons with specific needs not included in onboarding training. Specific individualized training required will be identified in the Support Plan Addendum. Each staff member is trained to the specific needs of the person served.	There are no specific risks in this area.	Independent Living Services of Central Minnesota provides training to assigned staff on specific vulnerabilities of persons served by providing the persons Individual Abuse Prevention Plan, Self-Management Assessment, Support Plan, Support Plan Addendum, Service Outcome, and Person-Centered Positive Support Strategies. These documents are provided to staff upon assignment and ongoing as changes are made. In person orientation is completed following the receipt of this information. Documentation of specific orientation and training is stored in the employee record. Staff are made aware of behavior patterns that may put a client at risk of abuse to self or others, as well as areas of vulnerability.

8. Knowledge of Previous Abuse: Independent Living Services of Central Minnesota serves persons who have experienced abuse in the past. Abuse type may include. Sexual, Physical, Financial, and Self Neglect.	Increased risk for prior abuse to take place again.	Designated Coordinators are provided the Support Plan from the County which lists prior abuse. This document is used to develop the Individual Abuse Prevention Plan that is provided to staff prior to meeting with the person served. Staff are made aware of any pattern of behavior that puts an individual at risk of abuse to self or others, as well as areas of vulnerability. These patterns are addressed in a service plan, individually specific to everyone that resides in the program and receives services from Independent Living Services of Central Minnesota in the Individual Abuse Prevention Plan. This plan informs staff of what has been used previously to avoid situations with a negative outcome. All staff are mandated reporters and information regarding internal and external reporting procedures will be posted at the site, including phone numbers and websites. All staff will be trained in any known risk areas related to the person served as well as additional support needed to aid in the reporting process. The established staffing pattern will meet the needs outlined in the individuals Support Plan Addendum.

II. PHYSICAL PLANT

Describe the physical plant in which the program is located. Assess the possible risk of harm and/or abuse to persons served based on the physical plant.
Describe the program's plan to reduce the risk of harm and/or abuse to persons served in the assessed area.

Describe the Physical Plant	Describe Any Possible Risks - if there are no risks in this area please state that there is no risk	Describe the Plan to Reduce the Risk to Persons Served by the Program
1. Condition and Design of the Physical Plant: 229 5th Ave S is a traditional apartment building. The building has a private entrance on 5th Ave to staff offices and community integration area. The building has 2 private entrances on 3rd St providing private access for tenants. These entrances have stairs and railings equipped. This building features 11 single family units with a mixed variety of studio and 1-Bedroom apartment layouts. This property has private resident only off-street parking via a parking lot. There is no garage attached or detached located at this property.	There are no risks in this area.	Independent Living Services of Central Minnesota provides all snow removal, lawn care, as well as building maintenance. While providing services, staff can provide verbal reminders regarding personal safety as well as aid when advocating for themselves should the need arise during service periods. While services are not being provided, individuals have access to the 24-Hour on-call phone number and local and community emergency numbers. Any identified hazards are addressed through removal, repair, or the creation of a plan to mitigate or avoid them. This proactive approach ensures a safe working environment for consumers and staff and demonstrates the company's commitment to risk management and injury prevention.

2. Areas Difficult to Supervise:

Independent Living Services of Central Minnesota does not provide a 24-Hour physical presence of staff but does have a 24 hour/ day on-call phone number available to all residents of Independent Living Services of Central Minnesota Integrated Community Support properties.

While not receiving In-person services, individuals have the right to privacy in their own apartment units. Staff will be present during service times that benefit the individual.

There are no risks in this area.

There are no risks in this area.

III. ENVIRONMENT and COMMUNITY

Describe the physical plant in which the program is located. Assess the possible risk of harm and/or abuse to persons served based on the physical plant.
Describe the program's plan to reduce the risk of harm and/or abuse to persons served in the assessed area.

Describe the Environment and Community	Describe Any Possible Risks - if there are no risks in this area please state that there is no risk	Describe the Plan to Reduce Risk to Persons Served by the Program
1. Neighborhood and Community: 229 5th Ave S is within blocks of the bus station, county buildings, DMV, college campus, banks, eateries, gas stations and job opportunities. The building is located roughly 7 city blocks from a laundromat, shopping stores, churches of multiple denominations, gyms, and smoke shops.	The road in front of the building has a 30MPH speed zone. The surrounding area is considered dangerous for persons who do not have street safety skills.	While in the presence of staff during assigned service hours, Independent Living Services of Central Minnesota staff will provide verbal reminders to remain safe while near the roads.
2. Grounds and Terrain: 229 5th Ave features a paved walkway from the main entrances of the building which connects to the public sidewalk. The paved parking lot is on the west and north sides of the building. The east side of the building is a road which features a 30 MPH speed zone.	Ordinary hazards that exist for all Minnesotans during winter such as cold, snow, ice, etc. During the summer the walkways leading up to the home might be hot to touch in the sun and high temps.	Persons served will be assisted by staff according to their Support Plan Addendum. The sidewalks and parking lot are maintained by Independent Living Services for maximum safety during winter. Independent Living Services of Central Minnesota will conduct regular inspections of the property. These inspections will focus on ensuring that the terrain, grounds, and surrounding areas are clean, safe, and free from hazards, allowing persons served to enjoy the outdoors with confidence and peace of mind.

III. ENVIRONMENT and COMMUNITY continued

Describe the program's plan to reduce the risk of harm and/or abuse to persons served in the assessed area.

Describe the Environment and Community	Describe Any Possible Risks - if there are no risks in this area please state that there is no risk	Describe the Plan to Reduce Risk to Persons Served by the Program
3. Type of Internal Programming: Independent Living Services of Central Minnesota provides a comprehensive range of services designed to support persons served in regaining independence. These services include Household Management, community engagement, Coping Skills development, Adaptive Skills training, and Health and Wellness programs. On site program activities Offsite program activities.	No risks in this area.	No risks in this area.
4. Staffing Pattern: Individuals set their own schedule and staffing is designed on the individual's preferences. The staffing ratio is 1:1, unless providing base rate services then there is no requirement for staffing ratio.	Risk of lack of supervision / Isolation	Independent Living Services always maintains an adequate ratio, ensuring that each person served receives appropriate support and supervision. This ratio is carefully managed to minimize the potential for abuse or harm. Coverage for scheduled shift will be provided as available. Coverage is not required in a semi-independent setting. No persons receiving services from Independent Living Services of Central Minnesota have a 24 hour plan of care / require 24 hour supervision.

		In the event another member of staff is unable to fill the needed hours, the hours will be re-scheduled at the individual's earliest convenience.
