

August Smart Lock – August Connect Setup Instructions

August Connect is an accessory that seamlessly combines with August Smart Lock to offer an intelligent, secure way to lock or unlock your door when you're away from home.

August Connect plugs into any power outlet near your August Smart Lock and uses your home's Wi-Fi and Internet connection to control your August Smart Lock. With August Connect, you can unlock or lock your door for guests, check your lock's status and receive instant notifications from anywhere through the August app.

1. August Connect - iOS Setup

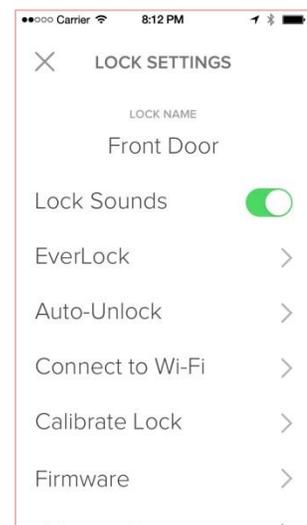

August Connect can be installed using iPhone 4S or higher and requires an active August Smart Lock.

To install the August Connect:

- **Plug In.** Plug your August Connect into a power outlet within 30 feet of your August Smart Lock. We recommend within 15 feet for optimal performance and reliability. Wait for the flashing green light on your August Connect. If you don't see the flashing green light press and hold the button on your August Connect for 3 seconds, then wait.
- **Connect.** On the Lock Settings screen in the August app, select "Connect to Wi-Fi" and follow the on screen instructions.

To get started with the August app for iOS devices:

- Make sure the iOS device has Wi-Fi turned on (Apple Settings > Wi-Fi)
- Make sure the phone is connected to your home Wi-Fi network (Connect is compatible with 2.4 GHz Wi-Fi)
- Open the August app
- Open "Lock Settings" and select "Connect to Wi-Fi" from menu

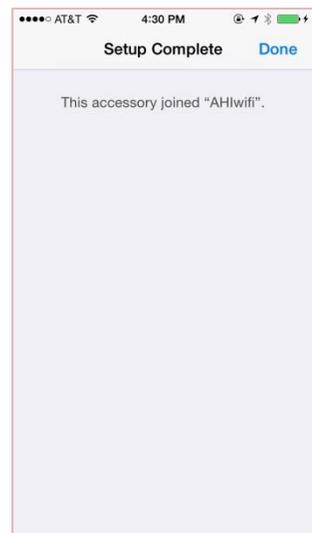

- Tap “Begin Scan”

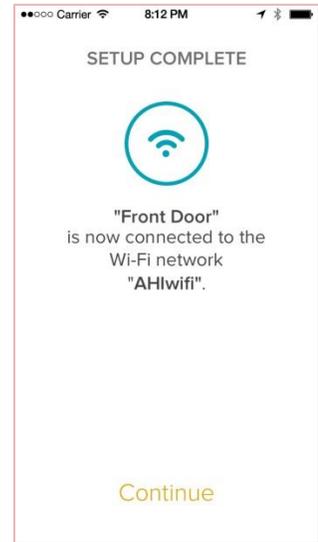

- Confirm there is a checkmark indicating the correct network in the “Accessory Setup” menu. You can change your accessory name if you’d like. Click “Next.”

- Wait for a moment as “Accessory Setup” completes. Click “Done.”

- Wait for a moment as setup completes. Click “Continue”

2. August Connect - Android Setup

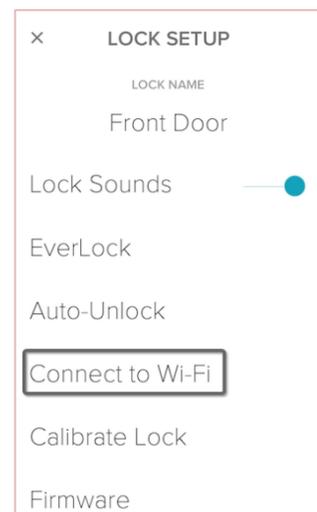

Install Your August Smart Lock. First, install and set up your August Smart Lock before configuring August Connect.

Plug In Your August Connect. Plug your August Connect into a power outlet within 30 feet of your August Smart Lock. We recommend within 15 feet for optimal performance and reliability. Wait for the flashing green light on your August Connect. If you don't see the flashing green light press and hold the button on your August Connect for 3 seconds, then wait.

Connect the August App

To get started with the August app for Android Devices:

- Make sure your Android device is connected to your Wi-Fi network.
- Open the August app.
- Open the "Lock Settings" and select "Connect to Wi-Fi" from menu.

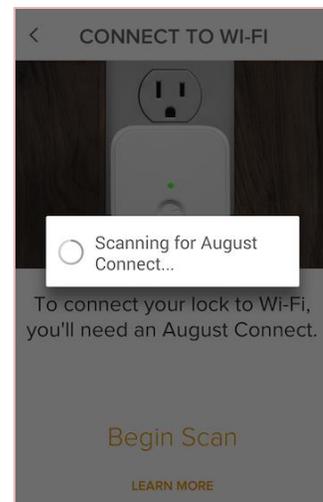

- Tap "Begin Scan."

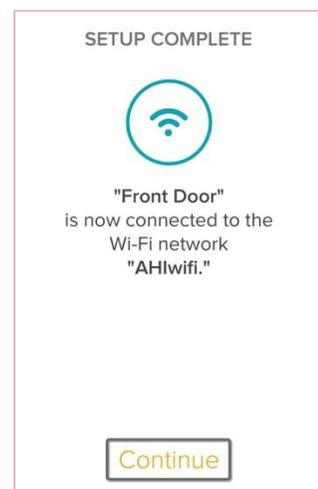

- Confirm the correct network is displayed in the setup screen menu. Click the yellow arrow to continue. (see "Important Note: For devices running Android 5.0")

- Wait (this can take a few minutes) as "Setup" completes.

- Click "Continue."

Important Note: For devices running Android 5.0:

- Under some conditions, "Connect to Wi-Fi" will fail when using an Android device running version Android 5.0 or later.
- If Setup fails on Android 5.0, perform the following steps:
 - Press the button on August Connect for 3 seconds
 - Go to the **Lock Settings > Wi-Fi Settings** screen and **Disconnect** if it shows your August Connect is connected.
 - Put your phone into Airplane mode, then turn on Wi-Fi.
 - Connect your Android device to your home Wi-Fi network and go through the installation process above.
- When Setup is complete, take your device out of Airplane mode.
