Sexual Abuse

Is the person Susceptible in this area?	Yes
Sexual Abuse - Person susceptible area	Lack of understanding of sexuality, Likely to seek or cooperate in an abusive situation, Inability to be assertive
If Other - Please specify	

<p>Specific measures to minimize risk of abuse for each area checked.</p>	<p>Julia may lack the knowledge of sexuality and may not understand if she were being sexually abused. Julia requires assistance with judgement, planning, and problem solving. She requires a 24-hour plan of care to ensure her health and safety needs are met. Julia can be very trusting of people and may not always understand if someone is attempting to take advantage of her, or know when to report a situation. Julia may not have the functional skills or ability to be assertive or to instruct a predator to stop during the abuse. Julia may not report abuse or maltreatment. It is unclear what Julia would do if an actual instance of abuse were to occur. Staff is with Julia at all times while she is receiving services. If staff were to see that Julia was being sexually abused, staff would verbally direct the perpetrator(s) to stop and will position themselves between Julia and the perpetrator. Staff would verbally request Julia go to a safe location. For safety, staff may call 911 to have the police assist in providing safety. Staff will assess for injuries and provide first aid. Staff have been trained and will implement company reporting policies.</p>
<p>Referrals made when the person is susceptible to abuse outside the scope or control of this program (Identify the referral and the Date it occurred).</p>	<p>N/A</p>
