Topics To Review

Outcomes

Nursing Process	No of Items	Individual Score	Description
RN Analysis/Diagnosis	1	100.0%	The analysis step of the nursing process involves the nurse's ability to analyze assessment data to identify health problems/risks and a client's needs for health intervention. The nurse identifies patterns or trends, compares the data with expected standards or reference ranges and draws conclusions to direct nursing care. The nurse then frames nursing diagnoses in order to direct client care.
RN Implementation/Therapeutic Nursing Intervention	4	100.0%	The implementation step of the nursing process involves the nurse's ability to apply nursing knowledge to implement interventions to assist a client to promote, maintain, or restore his health. The nurse uses problem-solving skills, clinical judgment, and critical thinking when using interpersonal and technical skills to provide client care. During this step the nurse will also delegate and supervise care and document the care and the client's response.
Thinking Skills	No of Items	Individual Score	Description
Clinical Judgment/Critical Thinking in Nursing	5	100.0%	Ability to use critical thinking skills (interpretation, analysis, evaluation, inference, and explanation) to make a clinical judgment regarding a posed clinical problem. Includes cognitive abilities of application and analysis.

NCLEX®	No of Items	Individual Score	Description
RN Management of Care	5	100.0%	The nurse coordinates, supervises and/or collaborates with members of the health care to provide an environment that is cost-effective and safe for clients.

Clinical Areas	No of Items	Individual Score	Description
Fundamentals	5	100.0%	Ability to apply fundamental nursing principles and skills to basic needs of clients. Topics include foundational client care concepts (ie: medical and surgical asepsis, infection control, physical assessment, therapeutic communication, medication administration, pain management integral to the delivery of safe, ethical, and legal nursing practice.

QSEN	No of Items	Individual Score	Description
Informatics	5	100.0%	The use of information technology as a communication and information gathering tool that supports clinical decision making and safe, scientifically based nursing practice.

NLN Competency	No of Items	Individual Score	Description
Professional Identity	5	100.0%	Professional identity reflects the professional development of the nurse as a member and leader of the health care team who promotes relationship-centered care, and whose practice reflects integrity and caring while following ethical and legal guidelines.

BSN Essentials	No of Items	Individual Score	Description
Information Management and Application of Patient Care Technology	5	100.0%	The need for nurses to be able to use computer-based information management systems and patient care technology in the provision of client care.
