

Individual Performance Profile

RN Learning System Fundamentals Practice Quiz 1

Individual Name:	CLAIRE E ZUMBAHLEN	Individual Score:	57.5%
Student Number:	ZU2401375	Practice Time:	13 min
Institution:	Lakeview CON		
Program Type:	BSN		
Test Date:	9/5/2020		
# of Questions:	40		

Individual Performance in the Major Content Areas			Individual Score (% Correct)										
Sub-Scale	# Items	Individual Score	1	10	20	30	40	50	60	70	80	90	100
Safe and Effective Care Environment	16	43.8%						▲					
Special Considerations	8	87.5%										▲	
Growth and Development	3	66.7%								▲			
Client Assessment	13	53.8%						▲					

Topics To Review

Safe and Effective Care Environment (9 items)

- Airway Management: Evaluating Actions for Tracheostomy Care
- Client Safety: Actions for a Client in Restraints
- Client Safety: Ensure Client Identity Prior to Procedures
- Ergonomic Principles: Proper Body Mechanics During Oral Care
- Ethical Responsibilities: Supporting a Client's Decision
- Health Promotion and Disease Prevention: Identifying Primary Prevention Actions
- Infection Control: Standard Precautions for Contaminated Gloves
- Legal Responsibilities: The Nurse's Role in Informed Consent
- Medical and Surgical Asepsis: Surgical Hand Hygiene

Special Considerations (1 item)

- Client Education: Factors Effecting Client Learning

Growth and Development (1 item)

- Bowel Elimination: Educating Older Adult Client to Prevent Constipation

Client Assessment (6 items)

- Critical Thinking and Clinical Judgment: Setting Priorities for Client Care
- Integumentary and Peripheral Vascular Systems: Assessing Skin Turgor for Dehydration
- Thorax, Heart, and Abdomen: Auscultating the Aortic Valve
- Thorax, Heart, and Abdomen: Correct Sequence of an Abdominal Assessment
- Thorax, Heart, and Abdomen: Identifying Abnormal Heart Sounds
- Vital Signs: Measuring a Lower Extremity Blood Pressure

Outcomes

Nursing Process	No of Items	Individual Score	Description
Assessment (RN 2013)	6	33.3%	Ability to apply nursing knowledge to the systematic collection of data about the client's present health status in order to identify the client's needs and to identify appropriate assessments to be performed based on client findings. Also includes the ability to accurately collect client data throughout the assessment process (client history, client interview, vital sign and hemodynamic measurements, physical assessments) and to appropriately recognize the need for assessment prior to intervention.
Analysis/Diagnosis (RN 2013)	3	33.3%	Ability to analyze collected data and to reach an appropriate nursing judgment about the client's health status and coping mechanisms, specifically recognizing data indicating a health problem/risk and identifying the client's needs for health intervention. Also includes the ability to formulate appropriate nursing diagnoses/collaborative problems based on identified client needs.
Planning (RN 2013)	5	60.0%	Ability to apply nursing knowledge to the development of an appropriate plan of care for clients with specific health alterations or needs for health promotion/maintenance. Includes the ability to establish priorities of care, effectively delegate client care, and set appropriate client goals/outcomes in order to ensure clients' needs are met.
Implementation/Therapeutic Nursing Intervention (RN 2013)	23	65.2%	Ability to select/implement appropriate interventions (e.g., technical skill, client education, communication response) based on nursing knowledge, priorities of care, and planned goals/outcomes in order to promote, maintain, or restore a client's health. Also includes the ability to appropriately respond to an unplanned event (e.g., observation of unsafe practice, change in client status) or life-threatening situation and to routinely take measures to minimize a client's risk.
Evaluation (RN 2013)	3	66.7%	Ability to evaluate a client's response to nursing interventions and to reach a nursing judgment regarding the extent to which goals and outcomes have been met. Also includes the ability to assess client/staff understanding of instruction, the effectiveness of intervention, and the recognition of a need for further intervention.

Priority Setting	No of Items	Individual Score	Description
	9	55.6%	Ability to demonstrate nursing judgment in making decisions about priority responses to a client problem. Also includes establishing priorities regarding the sequence of care to be provided to multiple clients.

Thinking Skills	No of Items	Individual Score	Description
Foundational Thinking in Nursing	5	40.0%	Ability to recall and comprehend information and concepts foundational to quality nursing practice.
Clinical Judgment/Critical Thinking in Nursing	35	60.0%	Ability to use critical thinking skills (interpretation, analysis, evaluation, inference, and explanation) to make a clinical judgment regarding a posed clinical problem. Includes cognitive abilities of application and analysis.

NCLEX®	No of Items	Individual Score	Description
Management of Care RN 2013	8	50.0%	Providing integrated, cost-effective care to clients by coordinating, supervising, and/or collaborating with members of the multi-disciplinary health care team.
Safety and Infection Control RN 2013	10	50.0%	Incorporating preventative safety measures in the provision of client care that provides for the health and well-being of clients, significant others, and members of the health care team.
Health Promotion and Maintenance RN 2013	17	52.9%	Providing and directing nursing care that encourages prevention and early detection of illness, as well as the promotion of health.
Psychosocial Integrity RN 2013	5	100.0%	Promoting mental, emotional, and social well-being of clients and significant others through the provision of nursing care.

QSEN	No of Items	Individual Score	Description
Safety	8	50.0%	The minimization of risk factors that could cause injury or harm while promoting quality care and maintaining a secure environment for clients, self, and others.
Patient-Centered Care	14	71.4%	The provision of caring and compassionate, culturally sensitive care that is based on a patient's physiological, psychological, sociological, spiritual, and cultural needs, preferences, and values.
Evidence Based Practice	16	50.0%	The use of current knowledge from research and other credible sources to make clinical judgments and provide client-centered care.
Informatics	1	100.0%	The use of information technology as a communication and information gathering tool that supports clinical decision making and safe, scientifically based nursing practice.
Quality Improvement	1	0.0%	Care-related and organizational processes that involve the development and implementation of a plan to improve health care services and better meet the needs of clients.
