|                        | Items | Score      |                                                                                                                    |
| Anatomy                | 14    | 100.0%     | Anatomy is the study of the structure and organization of the organs and body systems that make up the human body. |
| Physiology             | 56    | 98.2%      | Physiology is the study of how the organs and organ systems function within the human body.                        |

# Score Explanation and Interpretation

## Individual Performance Profile

**Individual Score:** This score is determined by dividing the number of questions answered correctly on the assessment (or within a designated section) by the number of questions on the assessment (or within a designated section).

$$\frac{\text{Number of questions answered correctly}}{\text{Total number of questions on the assessment}} = \frac{\%}{\text{correct}}$$

For example:  $\frac{60}{70} = 85.7\%$

**NA:** Data not available

**Topics to Review:** Based on the questions missed on this assessment, a listing of content areas and topics to review is provided.
