

School Nurse Webinar – Infectious Disease Prevention in Schools

Debriefing Questions

1. How does this webinar relate to the course?

The webinar is connected to Pediatrics since infectious infection are the primary cause of school absences. Rehabilitated vision could affect many aspects of the child's life. Many times, nurses are wanted to evaluate children and look for any kind of probable complications, as well as vision. The school nurse is the first person that is in contact with the children at school. It is imperative that the health care professional in charge know all the signs that are indicated with any kind of manifestation that might indicate an infectious disease.

2. How does this webinar contribute to the service provided by the school nurse?

The web site indicates:

Respiratory infections can spread from student to student in airborne droplets from coughs and sneezes. Teachers can model how to cough or sneeze into a tissue or an elbow — not into hands. In addition to coughing and sneezing, nose-blowing is a culprit for spreading germs (Rady Children's Hospital-San Diego, n.d.).

3. Name 3 ways this webinar impacts Pediatric health.

There is a variety of different ways that this webinar has assisted pediatric health. First, the offenders of infectious diseases. Second, importance of environmental disinfection. Third, viral infections attained indoors through airborne, droplet or contact transmission.

4. What are the health risks of the population seen during today's webinar?

Measles is extremely contagious. Stomach and intestinal infection can be infections like food poisoning. Skin infections and rashes like scarlet fever. Eye infections are extremely contagious, and pink eye is prevalent in the educational system. Ear infections are caused by streptococcus (Hinkle & Cheever, 2018).

5. How will your experience with this webinar impact your Nursing practice?

This webinar was very enlightening. Now, there will be a more focused amount of time to implemented geared to the eyes while giving a head-to-toe assessment.
