N311 Care Plan Grading Rubric

Student Name: Claire Zumbahlen

Demographics	5 points	2.5 points	0 points	Points
Demographics • Date of admission • Patient initials • Age • Gender • Race/Ethnicity • Occupation • Marital Status • Allergies • Code Status • Height • Weight	Includes complete information regarding the patient. Each section is filled out appropriately with correct labeling.	Two or more of the key components are not filled in correctly.	5 or more of the key components are not filled in correctly and therefore no points were awarded for this section	5
Medical History	**5 points**	**2.5 points**	**0 points**	**Points**
Past Medical History • All previous medical diagnosis should be listed **Past Surgical History** • All previous surgeries should be listed **Family History** • Considering paternal and maternal **Social History** • Smoking (packs per day, for how may year) • Alcohol (how much alcohol consumed and for how many years) • Drugs (how often and drug of choice)	Includes each section completed correctly with a detailed list of pertinent medical history, surgical history, family history and social history. If patient is unable to give a detailed history, look in the EMR and chart.	1 or more of the key components is missing detailed information.	More than two of the key components are not filled in correctly	5

Chief Complaint	2 points	1 point	0 points	Points

Chief complaint	Chief complaint is correctly identified.	Chief complaint not completely understood.	No chief complaint listed.	5
Chief complaint • Identifiable with a couple words of what the patient came in complaining of				

Admission History	**10 points**	**6-10 points**	**0-5 points**	**Points**
History of present illness • Written in a paragraph form with no less than 5 sentences • Information was not copied directly from the chart and no evidence of plagiarism • Information specifically stated by the patient using their own words is in quotations • Plagiarism will receive a 0	Every key component of the HPI is filled in correctly with information such as those identified with (OLD CARTS). It is written in a paragraph form, in the students own words. There is no evidence of plagiarism identified. This is developed in a paragraph format with no less than 5 sentences.	Two or more of the key components are missing in the HPI. The HPI is lacking important information to help determine what has happened to the patient.	4 or more components are missing in the HPI. Paragraph is not well developed and it is difficult to understand what the patient is seeking care for. There is evidence of plagiarism noted in the HPI.	5

Primary Diagnosis	**3 points**	**1.5 points**	**0 points**	**Points**

Primary Diagnosis • The main reason the patient was admitted Secondary Diagnosis • If the patient has more than one reason they are being admitted	All key components are filled in correctly. The student was able to identify the correct primary diagnosis and listed the appropriate secondary diagnosis if applicable.	One of the key components is missing or not understood correctly.	Student did not complete this section and there is concern for lack of understanding the diagnosis.		3

Pathophysiology	20 points	14-10 points	9-5 points	4-0 points	Points
Pathophysiology • Professionally written essay in APA format outlined all aspects of the disease process listed as the primary diagnosis • information is well written and no less than 1 page • Disease process pathophysiology is thoroughly explained from cellular level to how it affects each system and the body overall • Signs/symptoms of the disease • Diagnostic testing used to identify the disease • Particular tests or labs performed on the patient to help support the diagnosis of the findings • Treatment of the disease and the treatment being used with this particular patient • Plagiarism results in a zero in this section • 2 APA references, essay is written in correct APA format.	All key components were addressed and student had a good understanding of the expectations listed. Disease process was thorough with a direct correlation of how this related to the patient and their diagnostic testing that was performed.	One or two key components were missing such as signs and symptoms, expected findings, correlation and treatment. Student was able to describe the pathophysiology of the disease process.	Three or more components were missing throughout the paper. Unable to determine if the student had a good understanding of the disease process and the direct correlation to the patient.	Section is incomplete with several key factors missing. Student did not have a good understanding of the disease process and how it correlated to the patient. Section was not in APA format with minimum of 2 references (0 points will be given)	20

Laboratory Data	20 points	10-19 points	9-0 points	Points
Normal Values • Should be obtained from the chart when possible as labs vary some. If not possible use laboratory guide. • Normal values should be listed for all laboratory data. **Laboratory Data** • Admission Values • Most recent Values (the day you saw the patient) • **If laboratory data is unavailable, values will be assigned by the clinical instructor.** **Rational for abnormal values** • Written in complete sentences with APA citations • Explanation of the laboratory abnormality in this patient • For example, elevated WBC in patient with pneumonia is on antibiotics. • Minimum of 1 APA reference, no reference will result in zero points for this section	All key components have been addressed and the student shows an understanding of the laboratory norms and abnormalities. Student had 1 reference listed and is able to correlate abnormal laboratory findings to the patient's particular disease process.	1 or more of the patient's labs were not reported completely with normal values or patient results. Lab correlation did not completely demonstrate student's understanding of correlation.	Student did not have an understanding of laboratory values and the abnormalities. More than 2 labs were excluded. Student did not discuss the abnormal findings in APA format with a minimum of 1 reference.	15 Some of the abnormal value reasons did not correlate with the patient's disease. Where did you obtain your rationales for the abnormal values related to your patient's diagnosis?

Diagnostic Imaging	10 points	9-5 points	0-5 points	Points
Diagnostic Tests • Any other tests performed not previously addressed such as EKG, CT scans, X-rays, MRI, EEG, etc. This may include a test essential to the patient's diagnosis (i.e. CT of the Abdomen diagnosing the patient with an appendicitis)	All key components have been addressed and the student shows an understanding of the norms and abnormalities. Student had 1 reference listed and is able to correlate abnormal findings to the patient's particular disease process.	One or more of the key components is missing, yet the student is able to demonstrate an understanding of the diagnostic testing and is able to correlate the abnormal findings to the disease process.	Student did not have an understanding of diagnostic test and the abnormalities. Student did not include a test essential to the diagnosis of the patient. Student did not have an APA reference listed.	7 It appears you wrote what the radiologist assessed with the tests, however, what does it mean to you? Also, the rubric requires a reference listed.

Current Medications	10 points	1-9 points	0 points	Points
Current Medications • Requirements of 5 medications—these must be 5 DIFFERENT medications • Each medication must have brand/generic name • Dosage, frequency, route given, class of drug and the action of the drug • Reason client taking the medication • 2 contraindications must be listed o Must be pertinent to your patient • 2 side effects or adverse effects • Minimum of 1 APA citation, no citation will result in loss of all points in the section	All key components were listed for each of the 5 medications, along with the most common side effects, contraindications and client teachings. Student had 1 APA citation listed.	1 point will be lost for each medication with incomplete information.	There was noted lack of effort on the student's part to complete this section or there was no APA citation listed.	10
Physical Exam	**18 points**	**1-16 points**	**0 points**	**Points**
• Completion of a head to toe assessment done on the students own and not copied from the patients chart • Fall risk assessment • Braden skin assessment • **No fall risk or Braden scale will result in a zero for the section**	All key components are met including a complete head to toe assessment, fall risk and Braden score.	One or more of the key components is missing from a given section. Each body system is worth 2 points.	More than half of the key components are missing. Therefore, it is presumed that the student does not have a good understanding of the head to toe assessment process	**18** **You did an awesome job on your assessment.**

Vital Signs	5 points	2.5 points	0 points	Points
Vital signs • 1 sets of vital signs are recorded with the appropriate labels attached	All the key components were met for this section (with 1 set of vital signs) and student has a good understanding of abnormal vital signs.	Only one partial set of vital signs were completely recorded and one of the key components were missing.	Student did not complete this section	5
Pain Assessment	**5 points**	**2.5 points**	**0 points**	**Points**
Pain assessment • Pain assessment was addressed and recorded once throughout the care of this patient • It was recorded appropriately and stated what pain scale was used	All the key components were met (1 pain assessments) for this section and student has a good understanding of the pain assessment.	Pain assessment is incomplete.	Student did not complete this section	5

Intake and Output	2 points	1-0 points	Points
Intake • Measured and recorded appropriately—what the patient takes IN • Includes: oral intake, IV fluid intake, etc. **Output** • Measured and recorded appropriately—what the patient puts OUT • Includes: urine, stool, drains/tubes, emesis, etc.	All of the key components of the intake and output were addressed. Student demonstrates an understanding of intake and output.	One of the key components of the intake and output is missing. Difficult to determine if the student has a thorough understanding of the intake and output.	2

Nursing Diagnosis	15 points	5-14 points	4-0 points	Points
Nursing Diagnosis • List 2 nursing diagnosis o Include full nursing diagnosis with "related to" and "as evidenced by" components • Appropriate nursing diagnosis • Minimum of 2 interventions for each diagnosis • Appropriate evaluation	All key components were addressed. The student demonstrated an appropriate understanding of nursing diagnoses, rationales, interventions and listed diagnosis in correct priority.	One or more of the nursing diagnosis/rational/intervention sections was incomplete or not appropriate to the patient Each section is worth 3 points. Prioritization was not appropriate.	More than 2 of the nursing diagnosis sections were incomplete or inappropriate. Prioritization is dangerously inappropriate.	13

Overall APA format	5 Points	1-4 Points	0 Points	Points
APA Format • The student used appropriate APA in text citations and listed all appropriate references in APA format. • Professional writing style and grammar was used in all narrative sections.	APA format was completed and appropriate. Grammar was professional and without errors	APA format was used but not correct. Several grammar errors or overall poor writing style was used. Content was difficult to understand.	No APA format. Grammar or writing style did not demonstrate collegiate level writing.	4

Concept Map	20 points	Points

Concept Map
  - Patient information
  - Objective data
  - Subjective data
  - Interventions
  - Nursing Diagnosis
  - Outcomes
	Each box is worth 3 points, overall appearance and understanding is worth 3 points.	20

Description of Expectations	The concept map information is an overview of your patient. • At the center you have the patient's basic information: • "21-year-old female with a history of asthma is admitted for shortness of breath and Asthma exacerbation" List any other pertinent patient information or medical/surgical history. Is the patient non-compliant, for example? • Subjective data are the patient's symptoms, this information will come from you HPI and what the patient tells you. • Objective Data are the test results, assessment findings, abnormal vital signs, labs, etc. that support the diagnosis. • Interventions: This could be one box or several. You might break this up into more than one box such as "medication interventions" versus "nursing care interventions" or choose to put it in one. This would include things like medications, procedures, diet modifications, oxygen, help with ADL's, physical therapy, etc. • Nursing diagnosis/ Outcome. This can be 1 box per diagnosis/ outcome or you can put the diagnosis in 1 box and then link it to the outcomes. Remember the goal is what you hope to achieve while the outcome is how you will measure whether the goal was met. For example, a nursing diagnosis of "ineffective breathing pattern" may have an outcome to "maintain oxygen saturation of 98%). • Draw arrows to indicate what relates, for example in the patient with shortness of breath, her oxygen saturation (objective data) may be what is causing her symptoms (subjective data). Your nursing diagnosis likely comes from things identified in the objective data as well. The interventions come from the outcomes you hope to achieve. • It is ok to list things within each box you create, complete sentences are not necessary except if required to get your point across or to accurately list a nursing diagnosis. • The number of things in each box will vary, be complete. No pertinent information to the diagnosis should be excluded. There should be at least 3 of your top nursing diagnosis that you list with outcomes. There must be interventions listed that support the success of the outcomes.	

Instructor Comments: You have done an amazing job on your first care plan. Please review my comments to keep improving on your care plans as the course continues. Great Job!!	**Total point awarded** **142** /150
