

Nurses Touch: Becoming a Professional Nurse

Professional Nursing Practice

2-hr

o Work through each aspect of the module

o In a Paragraph Form do the following activities

Activity #1- Using the Case Study as a guide list the qualities that you possess that will enhance your professional practice.

My ability to therapeutically communicate with my clients will enhance my professional practice. I believe that therapeutic communication is essential to building a relationship with your client. Another quality I possess that will enhance my professional practice is empathy. Being able to put yourself in your client's shoes will allow them to trust you and confide in you.

Activity #2- How does political involvement enhance nursing practice? Does it benefit or detract from professional practice?

Political involvement governs policy and protocol for nursing practice. Political involvement can benefit and detract practice if it is followed properly. There should be rules and regulations for structure and order but, if equal and accessible care for all is not the center, things can go bad.

PLACE a Screenshot of the completed module and your written responses to the above activity questions in the corresponding Dropbox

The screenshot displays the 'Professional Nursing Practice' module interface. At the top, the title 'Professional Nursing Practice' is shown on the left, and a progress indicator on the right shows a yellow arc representing 50% completion. Below the title bar, there are three main buttons: 'CONTINUE LESSON' (yellow), 'BEGIN TEST' (yellow), and 'RESULTS' (blue). Under the 'CONTINUE LESSON' button, the text 'Time Spent: 02:09:06' is visible. In the bottom right corner, the text 'Accessed: 11/24/2020' is displayed.
