### **Interview:**

Shayla: Hello, Sherry! Today I would like to ask you a few questions about your experience about living in Charleston, IL.

Sherry: Ok Shayla! Sounds good.

Shayla: How long have you lived in Charleston and what has your experience been like?

Sherry: I have lived in Charleston since 2001! I moved here with my family and I took care of my mother who lived at Lakewood Village until March 2019, when the facility closed because of COVID-19. I have spent most of my time taking care of my mother and shopping at County Market.

Shayla: That's awesome! Do you live in town?

Sherry: Yes, I live in a small house on 19th street.

Shayla: What are the best and worst parts of living in Charleston?

Sherry: The best care is that myself and my mother have access to pretty decent healthcare and the worst part is that the town is so small and not very diverse. There are not a lot of food options either!
