

N433 Ages & Stages Questionnaire (ASQ) Assignment

Instructions:

Please go to Edvance and load the pdf file under the ASQ content. The questionnaires for the children are from age 2 months to 60 months. Find the age of the child you are doing the ASQ on, copy those pages and complete the questionnaire.

Select 2 children from the ages of 2 months to 60 months to complete your ASQ assignment. If you are having a difficult time finding children to perform ASQs on, please notify me.

Print off the age corresponding paperwork from the above web site, complete the ASQ on 2 children and turn in the results to the appropriate drop box by the due date at 2359 CST. No late assignments accepted.

Grading Criteria:

If assignment is completed and student submits all parts of the assignment in the assigned drop box by the assigned date, the student will receive 25 points for each ASQ assignment turned in.

If assignment is not completed and student does not submit all parts of the assignment in the assigned drop box by the assigned date, the student will receive a zero for this assignment that will be averaged in to clinical grades.

A completed assignment must have **all pages completed** with the exception Option 5 on the last page of the assignment, which does not have to be completed.
