

Individual Performance Profile

PN Growth and Development Case Study Test

Individual Name: JESSICA KAVAJECZ	Individual Score: 100.0%
Student Number:	Practice Time: 20 min
Institution: Lakeview CON	
Program Type: BSN	
Test Date: 1/17/2021	
# of Questions: 5	

Individual Performance in the Major Content Areas

Sub-Scale	# Items	Individual Score	Individual Score (% Correct)										
			1	10	20	30	40	50	60	70	80	90	100
Human Development	4	100.0%											▲
Intracranial Regulation	1	100.0%											▲

Topics To Review

Outcomes

Nursing Process	No of Items	Individual Score	Description
PN Data Collection	4	100.0%	The data collection step of the nursing process involves the nurse's ability to apply nursing knowledge to the systematic and continuous collection, organization, validation and documentation of data about a client's present health status. The nurse must use therapeutic communication and technical skills to safely collect comprehensive client data and draw conclusions.
PN Implementation/Therapeutic Nursing Intervention	1	100.0%	The implementation step of the nursing process involves the nurse's ability to apply nursing knowledge to implement interventions to assist a client to promote, maintain, or restore his health. The nurse uses problem-solving skills, clinical judgment, and critical thinking when using interpersonal and technical skills to provide client care. During this step the nurse will also delegate and supervise care and document the care and the client's response.

Thinking Skills	No of Items	Individual Score	Description
Clinical Judgment/Critical Thinking in Nursing	5	100.0%	Ability to use critical thinking skills (interpretation, analysis, evaluation, inference, and explanation) to make a clinical judgment regarding a posed clinical problem. Includes cognitive abilities of application and analysis.

NCLEX®	No of Items	Individual Score	Description
PN Safety and Infection Control	1	100.0%	The nurse uses preventive safety measures to promote the health and well-being of clients, significant others, and members of the health care team.
PN Health Promotion and Maintenance	4	100.0%	The nurse contributes to the plan of care to promote prevention and detection of illness and support optimal health.

Clinical Areas	No of Items	Individual Score	Description
Nursing Care of Children	5	100.0%	Ability to apply nursing knowledge to clinical problems experienced by children. Topics include basic concepts (e.g., medication administration, physical assessment, nutritional needs), care of children with various system disorders, care of children experiencing pediatric emergencies (e.g., accidental poisoning, respiratory arrest), and care of children with psychosocial disorders.

QSEN	No of Items	Individual Score	Description
Safety	2	100.0%	The minimization of risk factors that could cause injury or harm while promoting quality care and maintaining a secure environment for clients, self, and others.
Evidence Based Practice	3	100.0%	The use of current knowledge from research and other credible sources to make clinical judgments and provide client-centered care.

NLN Competency	No of Items	Individual Score	Description
Nursing Judgment	3	100.0%	Nursing judgment involves the use of critical thinking and decision making skills when making clinical judgments that promote safe, quality patient care.
Spirit of Inquiry	2	100.0%	A spirit of inquiry is exhibited by nurses who provide evidence based clinical nursing practice and use evidence to promote change and excellence.
