MIDTERM PROGRESS

FACULTY COMMENTS: Jenna is progressing well in the clinical setting. She appears to be very eager to learn and expand on her nursing knowledge, skills, and attitudes. Jenna practices with a questioning attitude by asking questions to the clinical instructor as well as the primary nurses on the nursing unit. Jenna is also enthusiastic about opportunities to grow her nursing skill set. In the weeks to come, I would like for Jenna to focus on broadening her pharmacology knowledge and reviewing each medication that she administers in the clinical setting.
