

N321 Adult Health I

Clinical Reflection Form

Name: Happy Kalavadia

Date: 3/4/2021

Mid Term Journal

1. Briefly write about your experience(s)

My experience as a nursing student at OSF Danville was very good. I learned a lot from my clinical instructor Professor Lawson. She is very professional and wants her student to succeed. I liked the med Surg floor and ED floor because I learned a wide variety of hand zone experiences.

2. What are the things you learned?

I learned to start an IV, do EKG, and administering medications. I also learned good professional and communication skills. I learned how to be organized and prioritize my things as a future nurse.

3. What are things you would do differently?

I would take the opportunity if given to rotate on floor surgery and cardiac rehab where I can watch the procedure.

4. What is your major “take-home” from clinical experience(s)?

My major takeaway is that to be a good nurse, one needs good professional and communication skills.

5. Is there anything else you would like to mention?

No, I liked my clinical instructor Professor Lawson, and the way the unique experiences I received from the clinicals.
