

N321 Adult Health I

Clinical Reflection Form Midterm and Final

Name: Alexis Cribbett

Date: 3-4-21

Clinical Rotation Site:

1. Briefly write about your experience(s)

Adult Health clinical has been a lot more interesting than foundations clinical. I'm learning more things & becoming more confident in my skills. This clinical has made me excited about becoming a nurse

2. What is one thing you learned at clinical?

SubQ injections
IV pump infusions

3. What is one thing you would do differently?

Becoming more assertive w/ my pts & not being so "scared" of them

4. What is your major "take home" from clinical experience(s)?

Jump in and don't be scared to get hands on. Take control of your learning

5. Is there anything else you would like to mention?

Wish we had more floors to rotate to, other than ED
