

# Individual Performance Profile

## N312 Exam 1 (Intro/PE/V/S/History) Dan Spring 20

### Outcomes

Acute/Chronic	No of Items	Individual Score	Description
Acute	5	100.0%	A disease, condition or injury characterized by a relatively sudden onset of symptoms that are usually severe. An episode of acute disease results in: recovery to a state comparable to the client's condition of health and activity before the disease; progression into a chronic illness; or death.

Bloom's Taxonomy	No of Items	Individual Score	Description
Analyze	1	100.0%	Examine detailed information methodically to determine relationships.
Apply	25	100.0%	Use information in a variety of situations.

Body Function	No of Items	Individual Score	Description
Cardiac Output and Tissue Perfusion	2	100.0%	The anatomical structures (heart, blood vessels, and blood) and body functions that support adequate cardiac output and perfusion of body tissues.
Cognition and Sensation	1	100.0%	The anatomical structures (brain, central and peripheral nervous systems, eyes and ears) and body functions that support perception, interpretation, and response to internal and external stimuli.
Oxygenation	1	100.0%	The anatomical structures (nose, pharynx, larynx, trachea, and lungs) and body functions that support adequate oxygenation of tissues and removal of carbon dioxide.

BSN Essentials	No of Items	Individual Score	Description
Basic Organization and Systems Leadership for Quality Care and Patient Safety	2	100.0%	The need for nurses to be able to understand power relationships and use decision-making and leadership skills to promote safe practice and quality improvement within health care systems.
Information Management and Application of Patient Care Technology	15	100.0%	The need for nurses to be able to use computer-based information management systems and patient care technology in the provision of client care.
Interprofessional Communication and Collaboration	2	100.0%	The need for nurses to be able to function as a member of the healthcare team while promoting an environment that supports interprofessional communication and collaboration with the goal of providing patient-centered care.
Baccalaureate Generalist Nursing Practice	5	100.0%	The need for nurses to be able to practice as a generalist using clinical reasoning to provide care to patients across the lifespan and healthcare continuum and to individuals, families, groups, communities, and populations.

# Individual Performance Profile

## N312 Exam 1 (Intro/PE/V/S/History) Dan Spring 20

Clinical Areas	No of Items	Individual Score	Description
Fundamentals	24	100.0%	Ability to apply fundamental nursing principles and skills to basic needs of clients. Topics include foundational client care concepts (ie: medical and surgical asepsis, infection control, physical assessment, therapeutic communication, medication administration, pain management integral to the delivery of safe, ethical, and legal nursing practice.

Critical Thinking	No of Items	Individual Score	Description
Foundational Thinking in Nursing	24	100.0%	Ability to recall and comprehend information and concepts foundational to quality nursing practice.

NCLEX RN	No of Items	Individual Score	Description
RN Management of Care	7	100.0%	The nurse coordinates, supervises and/or collaborates with members of the health care to provide an environment that is cost-effective and safe for clients.
RN Safety and Infection Control	1	100.0%	The nurse uses preventive safety measures to promote the health and well-being of clients, significant others, and members of the health care team.
RN Health Promotion and Maintenance	7	100.0%	The nurse directs nursing care to promote prevention and detection of illness and support optimal health.
RN Psychosocial Integrity	1	100.0%	The nurse directs nursing care to promote and support the emotional, mental and social well-being of clients and significant others.
RN Basic Care and Comfort	3	100.0%	The nurse provides nursing care to promote comfort and assist client to perform activities of daily living.
RN Reduction of Risk Potential	5	100.0%	The nurse directs nursing care to decrease clients' risk of developing complications from existing health disorders, treatments or procedures.

NLN Competency	No of Items	Individual Score	Description
Nursing Judgment	23	100.0%	Nursing judgment involves the use of critical thinking and decision making skills when making clinical judgments that promote safe, quality patient care.
Spirit of Inquiry	1	100.0%	A spirit of inquiry is exhibited by nurses who provide evidence based clinical nursing practice and use evidence to promote change and excellence.

# Individual Performance Profile

## N312 Exam 1 (Intro/PE/V/S/History) Dan Spring 20

Nursing Process	No of Items	Individual Score	Description
RN Assessment	12	100.0%	The assessment step of the nursing process involves application of nursing knowledge to the collection, organization, validation and documentation of data about a client's health status. The nurse focuses on the client's response to a specific health problem including the client's health beliefs and practices. The nurse thinks critically to perform a comprehensive assessment of subjective and objective information. Nurses must have excellent communication and assessment skills in order to plan client care.
RN Analysis/Diagnosis	5	100.0%	The analysis step of the nursing process involves the nurse's ability to analyze assessment data to identify health problems/risks and a client's needs for health intervention. The nurse identifies patterns or trends, compares the data with expected standards or reference ranges and draws conclusions to direct nursing care. The nurse then frames nursing diagnoses in order to direct client care.
RN Implementation/Therapeutic Nursing Intervention	4	100.0%	The implementation step of the nursing process involves the nurse's ability to apply nursing knowledge to implement interventions to assist a client to promote, maintain, or restore his health. The nurse uses problem-solving skills, clinical judgment, and critical thinking when using interpersonal and technical skills to provide client care. During this step the nurse will also delegate and supervise care and document the care and the client's response.
RN Evaluation	2	100.0%	The evaluation step of the nursing process involves the nurse's ability to evaluate a client's response to nursing interventions and to reach a nursing judgment regarding the extent to which the client has met the goals and outcomes. During this step the nurse will also assess client/staff understanding of instruction, the effectiveness of interventions, and identify the need for further intervention or the need to alter the plan.
Priority Setting	No of Items	Individual Score	Description
Priority Setting	5	100.0%	Ability to demonstrate nursing judgment in making decisions about priority responses to a client problem. Also includes establishing priorities regarding the sequence of care to be provided to multiple clients.

# Individual Performance Profile

## N312 Exam 1 (Intro/PE/V/S/History) Dan Spring 20

QSEN	No of Items	Individual Score	Description
Safety	4	100.0%	The minimization of risk factors that could cause injury or harm while promoting quality care and maintaining a secure environment for clients, self, and others.
Patient-Centered Care	14	100.0%	The provision of caring and compassionate, culturally sensitive care that is based on a patient's physiological, psychological, sociological, spiritual, and cultural needs, preferences, and values.
Informatics	4	100.0%	The use of information technology as a communication and information gathering tool that supports clinical decision making and safe, scientifically based nursing practice.
Quality Improvement	1	100.0%	Care-related and organizational processes that involve the development and implementation of a plan to improve health care services and better meet the needs of clients.
Teamwork and Collaboration	1	100.0%	The delivery of client care in partnership with multidisciplinary members of the health care team, to achieve continuity of care and positive client outcomes.
