

N433: Virtual Home Visit for a Child with a Medical Complexity Instructions

1. Login to OpenPediatrics
2. Search for “virtual home visit for a child with a medical complexity course” and select the highlighted course below:

The screenshot shows the OpenPediatrics search results page. The search bar at the top contains the text "virtual home visit for a child with a medical complexity course". Below the search bar, the page is titled "In-Depth Results". There are three tabs: "IN-DEPTH RESULTS" (which is selected), "VIDEOS AND COURSES (START HERE) (649)", and "MY COURSES AND LEARNING PLANS (12)". A list of seven search results is displayed, each with a thumbnail image, a "Done" button, and a title. The seventh result, "Virtual Home Visit for a Child with Medical Complexity Course", is highlighted in yellow. The other results are for various CE courses for Nurses, Physicians, Nurse Practitioners, and Social Workers, as well as Medication Safety and Home Accessibility and Safety.
