

N433 Instructions and Grading Rubric for ASQ Assignment

Edvance → Lessons → ASQ

Select 2 children from the ages of 2 months to 60 months, or perform an ASQ on the same child at least 12 weeks apart. If you are having a difficult time finding children to perform ASQs on, please notify me.

Print off the age corresponding paperwork from the selected ASQ, complete the ASQ on 2 children, and turn in the results to the appropriate Dropbox by the due date at 2359 CST. No late assignments accepted.

If assignment is completed and student submits all parts of the assignment in the assigned drop box by the assigned date, the student will receive 25 points for this assignment.

If assignment is not completed and student does not submit all parts of the assignment in the assigned drop box by the assigned date, the student will receive a zero for this assignment that will be averaged in to clinical grades.

A completed assignment must have all pages completed with the exception Option 5 on the last page of the assignment, which does not have to be completed.
