

N442 Self & Peer Evaluation Form for Student Participation in Group Work

This evaluation form is to be completed by each N442 student who has worked each group project (Community Assessment, Legacy Project). This form must be submitted to the edvance360 dropbox designated for that assignment evaluation.

(Every group member grade for the corresponding assignment will not be released until this form has been completed, and submitted evaluating all group members, including yourself and submitted by ALL group members individually).

These remain confidential. A lack of participation as evidenced by your group members on evaluations could result in a lower grade than the rest of your group members.

Directions: Write the name of each student member (**including yourself**) of your group in the appropriate column area titled "Group Members." Using the group participation rating scale indicated below, evaluate the participation of each member of your group by writing a number in the appropriate category columns.

Be sure to evaluate your own participation. (Comments required for score less than 3)

Self & Group Participation Rating Scale: 4 = Superior, 3 = Good, 2 = Fair, 1 = Poor

Comments:

Sarah, Morgan, and I were the only 3 of the group to complete the windshield survey and spent 5 hours touring the county. Although after that day Sarah contributed to the PP little to none and copied in work from the internet so I took it upon myself to delete and re-do it as I did

not want our grade to be determined on those 5 slides. Payton and Josh were very difficult to work with as they waited until the night before and day of to add in their work and responding little to none to all of the emails and text regarding this project from the beginning of the semester. I enjoyed working with Jackie, Teah and Abbie as many times they offered to pick up the slack of others in our group. Ruva was difficult to communicate with and did very little with this project. Hannah W. was also a late bloomer in putting in her information, but it was good quality once completed, again the week this was due.
