

N433 Exam 3 Study Guide

Fall 2021

Material that is covered on the exam includes assigned readings in the text, ATI, lecture presentations, and your notes. Medication calculation will be on the exam. Reviewing the care plans at the end of each chapter will assist you in identifying appropriate nursing actions in the given scenarios. This study guide is not all inclusive but will help you focus on review for the exam.

15 questions will be alternative item (med math, hot spot, picture, etc.)/select all that apply

Text	ATI
Ch. 37: Infection	Ch. 30, 36
Ch. 47: Immunologic Disorders	Ch. 38, pg. 185 (juvenile idiopathic arthritis)
Ch. 46: Hematology/Oncology	Ch. 21, 39-41

Ch. 37: Infection: Appx. 38% of the exam

1. Understand the definition of immunity and different types of immunity
2. Understand the components of the chain of infection
3. Variations in pediatric anatomy and physiology that makes them susceptible to infection
4. Know which isolation is appropriate for the following diseases
 - a. Box 37.4 pg. 1289
 - i. Measles
 - ii. Varicella
 - iii. Herpes Zoster
5. Nursing management of fever
6. Risk factors for CA-MRSA
7. Know the types of vector-borne/zoonotic illnesses
