

N431 Adult Health II

Clinical Reflection Form

Name: Bailey Pierce

Date: 10/27/21

Clinical Rotation Site: OR

1. Briefly write about today's experience(s)

Today's clinical was pretty exciting. I was able to witness several different procedures and see how the OR team works together. The RNs role in the ER was slightly different than I had observed in another setting.

2. What is one thing you learned?

I learned that a hidradenitis is a occluded sweat gland in the groin.

3. What is one thing you would do differently?

I don't think I would have done anything differently. I was able to utilize my time accordingly and see as much as possible during my rotation.

4. What is your major "take home" from today's clinical experience(s)?

I love the environment of the OR and this experience further solidified my desire to be an OR nurse.

5. Is there anything else you would like to mention?
Can I have another rotation here 😊
