

ADULT HEALTH II

CLINICAL EVALUATION TOOL

Student Name: Hannah Nowlin Morfey

Scoring of Clinical Evaluation Tool:

The clinical evaluation tool will be completed at Midterm and the end of the semester for a Final clinical grade. Each student performance will be assessed using an “M” (Met) or “NM” (Not Met) at Midterm and the Final. Students must receive an “M” for all performances to pass the clinical component of the course by **the completion of the clinical experience.**

MIDTERM PROGRESS

FACULTY COMMENTS: Hannah is progressing well in the clinical setting. She appears eager to learn and seeks out opportunities to expand her nursing knowledge, skills, and attitudes. Hannah exhibits excellent bedside manner and ensures her patients' needs are met and/or exceeded. In the weeks to come, I would like for Hannah to focus on pharmacology and being aware of the medications she is administering, their common uses, side effects, and nursing assessments related to each medication she administers.

FINAL GRADE

FACULTY COMMENTS: Hannah continues to progress well in the clinical setting. She seeks out opportunities to broaden her nursing knowledge and exhibits excellent bedside manner. Moving forward, I would like Hannah to reflect back on all that she has learned in her N431 Adult Health II clinical and how it can be applied to her future role as a professional nurse.

STUDENT COMMENTS: Professor Key made my clinical experience this semester the best one yet. She was always willing to work with us and go out of her way to make sure we gained experience. She shows us that she wants her students to succeed and I am grateful for that. I have no further recommendations to improve this clinical.
