Community Informatics Activity

Go to <https://www.dph.illinois.gov/data-statistics/vital-statistics> and answer the following questions:

1) What vital record events can be found on this website?	Births, marriages, divorces, adoptions, deaths, and abortions, in the state of Illinois.
2) Why would a public health nurse use this website for information?	Can help provide resources for emergency and preparedness as well as education for patients.

Go to <https://www.census.gov/data.html> and answer the following questions:

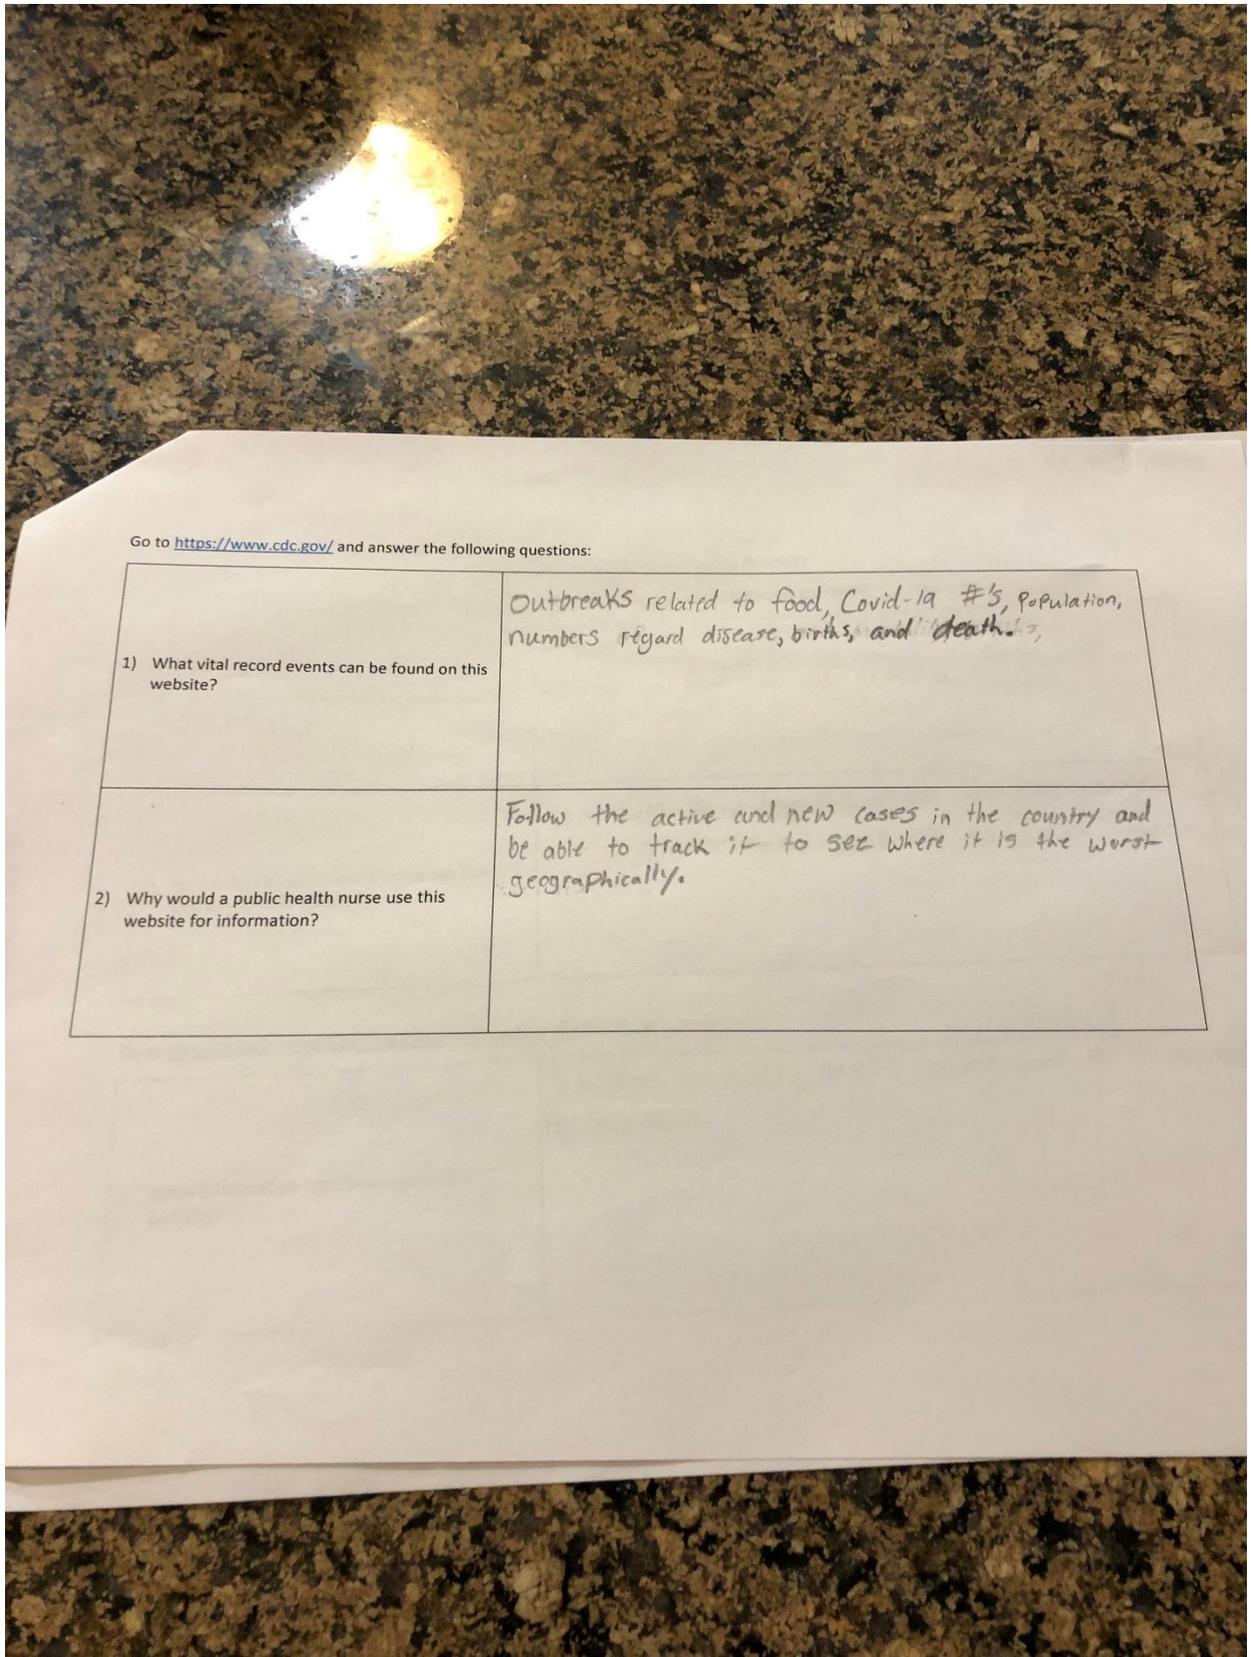

1) What information can be found on this website?	Population by County, gender, income, and # of person's per household.
---	--

2) Why would a public health nurse use this website for information?	This information can be related to health data because low socioeconomic status is a social health determinant and may lead to health disparities.
--	--

Go to <https://www.co.coles.il.us/cchd/index.html> and answer the following questions:

1) What vital record events can be found on this website?	Covid-19 rates along with vaccination rates, active cases, new cases, and deaths.
2) Why would a public health nurse use this website for information?	can share screening and vaccination dates to the public easily. Testing information is also a resource that can be provided to the County community.

Go to <https://www.cdc.gov/> and answer the following questions:

1) What vital record events can be found on this website?	Outbreaks related to food, Covid-19 #s, population, numbers regard disease, births, and deaths.
2) Why would a public health nurse use this website for information?	Follow the active and new cases in the country and be able to track it to see where it is the worst geographically.
