## **Instructions:**

Before Scenario:

Required readings from textbook: Table 16-1; Chart 16-11

Required readings: On e360 homepage: read the PDF “Outline of different cultural beliefs at time of death”

Recommended readings from textbook: Read pages 34; 102-112; 387-413;

You will be given a specific scenario upon arriving to the simulation lab. You will then have to act out how you will handle the situation as a nurse. The scenario will be used for evaluating, remediating, and debriefing.

Once the debriefing period is over you will then complete a reflective activity and turn in to the instructor.

## Reflective Activity

What are the major take-home lessons for you today?

I didn't realize how much religion and culture can affect how patients should be cared for.

What are the top three nursing actions related to the dying patient-specific to the patient's cultural needs?  
Religious beliefs, culture beliefs, education on the dying process, and emotional support while grieving.

Who would you, as the nurse, consult to assist during the scenario?  
I would consult with the family so I can better understand their culture and beliefs.

How can I adapt my nursing practices to be more responsive to the unique needs of diverse patient populations?  
I can adapt my practices by understanding the needs of different cultures and how to implement their needs into my care plan.

How can I adapt my nursing practices to be more responsive to patients with death and dying process?  
I can adapt my plan of care to their beliefs and support them while they grieve.

What impact does NOT complete the specific death, and dying practices affect the patient? You as the nurse?  
The hospital? Healthcare as a whole?  
The nurse, hospital, and healthcare as a whole affects how the death and dying patients are being cared for.
