

- **§ What are the risks/hazards for the community, community strengths, community weaknesses, suggestions for improvement?**

There has been in an influx of violence in the Champaign-Urbana area. More specifically on Market street and Prospect. One strength of Champaign is that Covid was dealt with well. The vaccination and testing setups in particular. Improvement should focus on outreach groups such as groups that provide medical care and resources for the less fortunate.

- **§ If your group were to complete a community change project on the county seat or the whole county, what would be the ideal change project?**

The ideal change project would be to provide resources to underfunded and underrepresented neighborhoods of Champaign.

- **§ Community members perception of level of safety in the community**

Not as good as it used to be, but it isn't necessarily bad.

- **§ Community members perception of personal health and the health of the community.**

Living on campus, there are rampant mental health issues, but physical health seems to be okay.

- **§ Community members perception of the ability of the community to identify, plan, and meet the health needs of the community (intra-community resources).**

More prominent funding and support is needed for underprivileged community members.

- **§ Citizen's perception of the future of the community.**

If the gun violence is not dealt with, then the community safety can go into a bad direction.

- **§ Do they live in this community? If so, how long? If not, how long have they worked in this community?**

Lived in the community for 23 years and has worked here for 8 years.

- **§ Are these healthcare opportunities available? I.e. Hospitals, medical facilities, public health department, family planning, crisis pregnancy, domestic abuse services, ALANON, AA, NA.**

Yes, multiple hospitals, a public health department, and crisis nursery.

- **§ Adequacy of Health Care and Social Services per key stakeholders (interviewed community members)**

They are decent, but there is still a problem with getting these services to the lower end of the socioeconomic stratum.

- **§ Geographic Distribution of Health Care and Social Service How far away are they? How hard is it to get an appointment?**

It is not far since there are multiple health care facilities spread throughout the community. Appointments are easy to get unless it is specialty such as obstetrics or mental health.

- **§ Types of Services & Resources**

- **See above for a listing (may add ones not listed)**
- **Are there primary care facilities?**
- **You can always ask EMS if they transport primary care or walk in clinic appropriate patients to the ER rather than then seeking care appropriately.**

Hospitals, Crisis nursery, EMS, convenient care, emergency departments, etc.

- **§ Social supports**

- **Counseling and support systems**
- **Clothing**
- **Food**
- **Shelter (Homeless shelter, churches, etc.).**

Two roads, Carle psychiatry, Salt and light, Daily bread soup kitchen, CU at home.

- **§ Nearest animal shelter/rescue?**

- **Is this a kill shelter?**

Champaign County Humane society which is a kill shelter.

- **§ Private Transportation: estimated number of persons with a transportation issues (do you see many cars on the road? What do the community members tell you about this? What does the police say about this?)**

Lots of cars on the road but individuals have transportation issues and they need to take the CUMTD to get places, but it doesn't go everywhere in the community.
