Online Communication:**Email Rules**

When emailing a professor, please observe these courtesies:

1. Address the instructor respectfully in the opening.
2. Identify course name, number, day and time. Indicate your status as a student and your purpose for the inquiry.
3. Include your first and last name in the closing.
4. Articulate your specific need(s) in the message. Aspire to brevity.

5. Use proper grammar, spelling and punctuation. No jargon.
6. If your email requires a reply, you can expect to receive a reply within 24 hours if the message arrives within the standard workweek (8-5 M-F). If a message is sent over the weekend or holiday, it will be addressed the next school day.
7. Re-send or follow up with another email if you do not receive a response within a reasonable amount of time stating when the previous email was sent. (Sometimes messages get lost, filtered or held up).

Principles of Effective Emails

Use for the right purposes (not for bad news, sensitive/emotional issues)

1. Protect privacy and confidentiality. Respond promptly.
2. Maintain professionalism and appropriate formality (use standard English) Manage emotion effectively and maintain civility (avoid flaming, cyber silence or misinterpretation)
3. Avoid distractions.

Show respect for others' time by:

1. Selecting message recipients carefully.
2. Providing timeliness and options.
3. Avoiding overuse of the priority flag.
4. Letting others know when you will take longer than normal to respond or take action.
5. Avoiding contributing to confusing and repetitive email chains.

Ensure ease of reading by:

1. Providing a short descriptive subject line.
2. Keeping your message brief yet complete.
3. Identifying expected actions clearly.
4. Providing a descriptive signature block.
5. Using attachments wisely.

Netiquette Rules

- * Use courtesy & common sense in e-mail communication
- * Use polite language.

Grammar, Punctuation, and Style

1. Use the spell checker.
2. Reread for accuracy
3. Make it easy to read
4. Use one, easy-to-read font (preferably Times New Roman, 12 point).
5. Don't use colors; stick to black.
6. Use bold sparingly -- only to highlight something that absolutely must not be missed.
7. Don't use italics, if possible (very hard to read, except for APA requirements) DO NOT USE ALL CAPS. (This is yelling.)
8. Don't use backgrounds; they often load as attachments instead of backgrounds, and they add to the load time.

Consider the tone

- * Be aware that words can inadvertently offend; go out of your way to extend the courtesy
- * If there could be doubt as to the tone of your message, reinforce it with an icon or acronym. o ;) =winking o :) =laughing, happy, just joking o :(=sad o lol=laughing out loud)

Think before copying to others

- * Especially if there is a negative tone, confine the message to only those who must read it
- * In replies, even if the message to you was copied to others, do not reply to everyone unless the information is useful to everyone
- * E-mail warfare will come back to bite you!

Think before you hit send!

- * If you are angry, let your message sit and review it later

* Do not “flame” anyone. You may feel justified today sending a red-hot message, but may regret it tomorrow

* Wait to reply to flaming e-mail until you can do it with calm.

Use the subject line

* Subject lines help recipients prioritize

* Keep them short so they display.

Never, never...

* Never send anything personal or lewd that could be embarrassing

* Never send anything that is top-secret, because e-mail isn't 100% secure!
