Assessment of Client/Family	Nursing Diagnosis & Goal of	Interventions	Methods/Teaching Tools	Evaluation
------------------------------------	----------------------------------------	----------------------	-------------------------------	-------------------

(5 points)	Teaching (5 points)	(5 points)	(2 points)	(3 points)
<p>Level of motivation for learning: Patient is motivated to learn. The patient is sitting forward making eye contact during the conversation. The client is alert and oriented to person, place, time, and situation.</p> <p>Barriers to effective learning: There are no barriers to learning.</p> <p>Health beliefs/values: The patient has stated that he “cares greatly” about his health because he does not want to spend any more time in the hospital. The client does not smoke, uses smokeless tobacco, or alcohol.</p> <p>Psychosocial development: Appropriate for age.</p> <p>Cognitive development: Appropriate for age. The client has no cognitive delays upon assessment.</p>	<p>Nursing Diagnosis: Risk for injury related to frequent falls as evidenced by frequent hospital visits.</p> <p>Goal of Teaching: To prevent further falls, promote a safe environment and prevent further hospital visits.</p>	<p>Intervention 1: Remove rugs from home and instead wear socks with grips.</p> <p>Intervention 2: Use assistive devices, such as a walker, to ambulate.</p> <p>Intervention 3: Make clear paths in the home by moving furniture and objects out of the way.</p>	<p>Method 1: Discussion</p> <p>Method 2: Teach-Back</p>	<p>Discuss how the client/family received the teaching: The client understood the teaching. The client maintained eye contact and asked questions. The client’s wife was present during the teaching and appeared to receive it well.</p> <p>Identify strengths/weaknesses of the client or family in receiving teaching: The strength of the client and family is motivation. The wife states a weakness of the patient is his impatience and rushing that leads to falls.</p> <p>Suggest modifications to improve teaching plan (what would have improved the plan?): Presenting the teaching at a different time may have been better as breakfast was being served.</p>
