### Outcomes

| Dosage Calculation            | No of Points | Individual Score | Description                                                             |
|-------------------------------|--------------|------------------|-------------------------------------------------------------------------|
| Unit of Measure               | 2            | 100.0%           | Correctly converts units of measure from different measurement systems. |
| Medication Order              | 1            | 100.0%           | Correctly interprets medication orders and identifies errors/omissions. |
| Medication Label              | 1            | 100.0%           | Correctly interprets information on medication labels.                  |
| Intravenous Drip Rate         | 4            | 100.0%           | Correctly calculates IV drip rates.                                     |
| Multi-Step Dosage Calculation | 7            | 100.0%           | Correctly Calculates dosages based upon client weight.                  |
| Dosage Calculation            | 10           | 100.0%           | Correctly Calculates dosages to administer based upon available dose.   |

# Score Explanation and Interpretation

## Individual Performance Profile

### ITEM SCORING

ATI follows NCSBN guidance for item scoring. Accordingly, each item is worth one or more points. Depending on the item-specific scoring method, a student's response may earn full, partial, or no points.

### INDIVIDUAL SCORE

The individual score is the number of points received divided by the number of points on the assessment. It is on a scale of 0% to 100%.

### TOPICS TO REVIEW

Based on the questions missed on this assessment, a listing of content areas and topics to review may be provided. A variety of learning resources may be used in the review process, including content, images, animations, and videos in ATI's Content Mastery Series® Review Modules, online practice assessments, and a focused review that is individualized to the questions missed.
