# Score Explanation and Interpretation

## Individual Performance Profile

**Individual Score:** This score is determined by dividing the number of questions answered correctly on the assessment (or within a designated section) by the number of questions on the assessment (or within a designated section).

$$\frac{\text{Number of questions answered correctly}}{\text{Total number of questions on the assessment}} = \frac{\%}{\text{correct}}$$

For example:  $\frac{49}{60} = 81.7\%$

**NA:** Data not available

**Topics to Review:** Based on the questions missed on this assessment, a listing of content areas and topics to review is provided. A variety of learning resources may be used in the review process, including select components of ATI's Content Mastery Series<sup>®</sup> review modules, online practice assessments, and the ATI-PLAN<sup>®</sup> DVD nursing review disk set.
