

Welsey Bierman

Coles County Health Department:

Go to <https://www.co.coles.il.us/cchd/index.html> and answer the following questions:

1) What vital record events can be found on this website?	This website provides statistics on environmental environmental health, food protection, refuse and nuisance, sewage systems, tanning and body art, water wells, communicable diseases, immunizations, international travel, screening and testing, STD testing, WIC, and HIPAA privacy notice.
2) Why would a public health nurse use this website for information?	Public health nurses can use this website to investigate the community. This website can help the nurse to determine if the water and food is safe for the community to eat. The nurse can look into the prevalence of communicable diseases in the area and determine if a plan of action or education is warranted.

Centers for Disease Control and Prevention:

Go to <https://www.cdc.gov/> and answer the following questions:

1) What vital record events can be found on this website?	This website provides statistics about death and mortality, births, fetal deaths, drug overdose deaths, infant mortality, life expectancy, and marriages and divorces.
2) Why would a public health nurse use this website for information?	Public health nurses can use the CDC website to investigate health problems and health hazards in the community. The CDC website can provide a public health nurse with vital statistics about a community. This information can be used to inform, educate, & empower the community members about the health problems most prevalent in their community.
