Time Use and Score

Virtual Interaction: Adult clients misusing alcohol	Date	Time Spent	Score(Points)
Practice: Sam	01/19/2023	00:47	Complete

Scenario

In this assessment, you will perform an initial single-question screen with Sam. To successfully complete this task, use the validated question to screen Sam for alcohol use.

Overall Engagement

Overall Engagement

0 of 0 points Selected option:
 You took two attempts to identify the NIAAA single-question screen.

Rationale:
 No rationale available for this conversation.

Communication Technique Feedback: Points on technique separate from overall points

0 of 0 pts Rationale:
 No additional feedback available for this conversation.

Scenario

During a regular appointment with her care provider, Jessica takes the AUDIT screen and scores a 6. Test your knowledge and skills by talking with Jessica about her screening result and conducting a brief intervention.

Focused Undo Performance

During this simulation, you encountered 3 forced undos. Forced undos occur when your conversation reaches a "dead end" that is not positive for the client. Try to avoid conversational paths that lead to forced undos in the future in order to improve your score.
