

Topics To Review

Fluids and Electrolytes/Acid-Base Balance (1 item)

Fluids and Electrolytes: Blood Clotting

Immunological System (2 items)

Immunological System: Release of Histamine

Immunological System: Antibody Types

Integumentary System (3 items)

Integumentary System: Types of Heat Loss

Integumentary System: Types of Wound Healing

Integumentary System: Functions of the Dermis

Cardiovascular System (2 items)

Cardiovascular System: Blood Pressure Regulation

Cardiovascular System: Function of Heart Valves

Respiratory System (1 item)

Respiratory System: Function of Surfactant

Urinary System (1 item)

Urinary System: Hormonal Fluid Regulation

Gastrointestinal System (1 item)

Gastrointestinal System: Anatomical Structures

Sensory and Neurological System (2 items)

Sensory and Neurological System: Structures of the Inner Ear

Sensory and Neurological System: Regulation of Heart Rate, Respiratory Rate, and Blood Pressure

Outcomes

| Anatomy and Physiology | No of Items | Individual Score | Description |
|-------------------------------|--------------------|-------------------------|--|
| Anatomy | 14 | 85.7% | Anatomy is the study of the structure and organization of the organs and body systems that make up the human body. |
| Physiology | 56 | 80.4% | Physiology is the study of how the organs and organ systems function within the human body. |

Score Explanation and Interpretation

Individual Performance Profile

Individual Score: This score is determined by dividing the number of questions answered correctly on the assessment (or within a designated section) by the number of questions on the assessment (or within a designated section).

$$\frac{\text{Number of questions answered correctly}}{\text{Total number of questions on the assessment}} = \frac{\%}{\text{correct}}$$

For example: $\frac{60}{70} = 85.7\%$

NA: Data not available

Topics to Review: Based on the questions missed on this assessment, a listing of content areas and topics to review is provided.
