

Reflective Activity

What are the major take-home lessons for you today?

Ensure as a nurse that care partners are also looking for these things and to make sure you do what needs done with needle and biohazard materials.

How did this experience change your view of preventing risks?

Be on the lookout for things that are commonly missed such as the canula not in the nose or the tracheostomy not secure as you get used to your patients having those things.

(Grading Criteria)

Points	If...
5	The student found all 10 actual safety risks in addition to identifying potential safety risks in the client environment.
4	The student found all 10 actual safety risks but did not identify any potential safety risks in the client environment.
3	The student found 7-9 actual safety risks and/or potential safety risks in the client environment.
2	The student found 4-6 actual safety risks and/or potential safety risks in the client environment.
1	The student found 1-3 actual safety risks and/or potential safety risks in the client environment.
0	The student did not find any safety risks in the client environment.
