- RN ATI Capstone Adult Medical Surgical 1 2019 (17 items)**
- Management of Care (1 item)**
  - Critical Thinking and Clinical Judgement: Priority Client for Nurse to Assess(Active Learning Template: Basic Concept)
- Physiological Adaptation (8 items)**
  - Addison's Disease and Acute Adrenal Insufficiency (Addisonian Crisis): Manifestations of Addisonian Crisis(Active Learning Template: System Disorder)
  - Endocrine Diagnostic Procedures: Priority Action Following a Pheochromocytoma Removal(Active Learning Template: System Disorder)
  - Headaches: Manifestations of Migraine Headaches with Aura(Active Learning Template: System Disorder)
  - Kidney Transplant: Indications of Transplant Rejection(Active Learning Template: System Disorder)
  - Pneumothorax, Hemothorax, and Flail Chest: Manifestations of a Tension Pneumothorax(Active Learning Template: System Disorder)
  - Polycystic Kidney Disease, Acute Kidney Injury, and Chronic Kidney Disease: Teaching About Polycystic Kidney Disease (Active Learning Template: System Disorder)
  - Seizures and Epilepsy: Seizure Precautions(Active Learning Template: Nursing Skill)
  - Spinal Cord Injury: Preventing Autonomic Dysreflexia(Active Learning Template: System Disorder)
- Psychosocial Integrity (1 item)**
  - Stroke: Expected Assessment Findings of a Left-Sided Stroke(Active Learning Template: System Disorder)
- Safety and Infection Control (1 item)**

## Topics To Review Go to your Improve tab to access your Focused Review Experience

Hematologic Diagnostic Procedures: Teaching a Client About a Bone Marrow Biopsy(Active Learning Template: Diagnostic Procedure)

### Basic Care and Comfort (1 item)

Urinary Elimination: Identifying Type of Urinary Incontinence(Active Learning Template: System Disorder)

### Pharmacological and Parenteral Therapies (3 items)

Parkinson's Disease: Caring for a Client Taking Selegiline(Active Learning Template: Medication)

Rheumatoid Arthritis: Adverse Effects of NSAIDs(Active Learning Template: Medication)

Tuberculosis: Assessing a Client Who is Receiving Rifampin(Active Learning Template: System Disorder)

### Reduction of Risk Potential (2 items)

Asthma: Monitoring Peak Expiratory Flow Rates(Active Learning Template: Diagnostic Procedure)

Osteoarthritis and Low-Back Pain: Expected Assessment Findings for a Herniated Lumbar Disk(Active Learning Template: System Disorder)

### Management of Care (1 item)

Spinal Cord Injury: Preventing Autonomic Dysreflexia(Active Learning Template: System Disorder)

### Outcomes

Nursing Process	No of Points	Individual Score	Description
RN Assessment	9	44.4%	The assessment step of the nursing process involves application of nursing knowledge to the collection, organization, validation and documentation of data about a client's health status. The nurse focuses on the client's response to a specific health problem including the client's health beliefs and practices. The nurse thinks critically to perform a comprehensive assessment of subjective and objective information. Nurses must have excellent communication and assessment skills in order to plan client care.
RN Analysis/Diagnosis	9	44.4%	The analysis step of the nursing process involves the nurse's ability to analyze assessment data to identify health problems/risks and a client's needs for health intervention. The nurse identifies patterns or trends, compares the data with expected standards or reference ranges and draws conclusions to direct nursing care. The nurse then frames nursing diagnoses in order to direct client care.
RN Planning	4	75.0%	The planning step of the nursing process involves the nurse's ability to make decisions and problem solve. The nurse uses a client's assessment data and nursing diagnoses to develop measurable client goals/outcomes and identify nursing interventions. The nurse uses evidenced based practice to set client goals, establish priorities of care, and identify nursing interventions to assist the client to achieve his goals.
RN Implementation/Therapeutic Nursing Intervention	23	73.9%	The implementation step of the nursing process involves the nurse's ability to apply nursing knowledge to implement interventions to assist a client to promote, maintain, or restore his health. The nurse uses problem-solving skills, clinical judgment, and critical thinking when using interpersonal and technical skills to provide client care. During this step the nurse will also delegate and supervise care and document the care and the client's response.
RN Evaluation	5	100.0%	The evaluation step of the nursing process involves the nurse's ability to evaluate a client's response to nursing interventions and to reach a nursing judgment regarding the extent to which the client has met the goals and outcomes. During this step the nurse will also assess client/staff understanding of instruction, the effectiveness of interventions, and identify the need for further intervention or the need to alter the plan.

Priority Setting	No of Points	Individual Score	Description
	6	66.7%	Ability to demonstrate nursing judgment in making decisions about priority responses to a client problem. Also includes establishing priorities regarding the sequence of care to be provided to multiple clients.

<b>Thinking Skills</b>	<b>No of Points</b>	<b>Individual Score</b>	<b>Description</b>
Foundational Thinking	8	75.0%	The ability to comprehend information and concepts. Incorporates Blooms Taxonomy categories of Remembering and Understanding.
Clinical Application	42	64.3%	The ability to apply nursing knowledge to a clinical situation. Incorporates Blooms Taxonomy category of Applying.

<b>NCLEX®</b>	<b>No of Points</b>	<b>Individual Score</b>	<b>Description</b>
RN Management of Care	3	66.7%	The nurse coordinates, supervises and/or collaborates with members of the health care to provide an environment that is cost-effective and safe for clients.
RN Safety and Infection Control	4	75.0%	The nurse uses preventive safety measures to promote the health and well-being of clients, significant others, and members of the health care team.
RN Health Promotion and Maintenance	2	100.0%	The nurse directs nursing care to promote prevention and detection of illness and support optimal health.
RN Psychosocial Integrity	2	50.0%	The nurse directs nursing care to promote and support the emotional, mental and social well-being of clients and significant others.
RN Basic Care and Comfort	4	75.0%	The nurse provides nursing care to promote comfort and assist client to perform activities of daily living.
RN Pharmacological and Parenteral Therapies	9	66.7%	The nurse administers, monitors and evaluates pharmacological and parenteral therapy.
RN Reduction of Risk Potential	11	81.8%	The nurse directs nursing care to decrease clients' risk of developing complications from existing health disorders, treatments or procedures.
RN Physiological Adaptation	15	46.7%	The nurse manages and provides nursing care for clients with an acute, chronic or life threatening illness.

<b>QSEN</b>	<b>No of Points</b>	<b>Individual Score</b>	<b>Description</b>
Safety	13	76.9%	The minimization of risk factors that could cause injury or harm while promoting quality care and maintaining a secure environment for clients, self, and others.
Patient-Centered Care	11	81.8%	The provision of caring and compassionate, culturally sensitive care that is based on a patient's physiological, psychological, sociological, spiritual, and cultural needs, preferences, and values.
Evidence Based Practice	26	53.8%	The use of current knowledge from research and other credible sources to make clinical judgments and provide client-centered care.

<b>NLN Competency</b>	<b>No of Points</b>	<b>Individual Score</b>	<b>Description</b>
Human Flourishing	9	77.8%	Human flourishing is reflected in patient care that demonstrates respect for diversity, approaches patients in a holistic and patient-centered manner, and uses advocacy to enhance their health and well-being.
Nursing Judgment	35	60.0%	Nursing judgment involves the use of critical thinking and decision making skills when making clinical judgments that promote safe, quality patient care.
Spirit of Inquiry	6	83.3%	A spirit of inquiry is exhibited by nurses who provide evidence based clinical nursing practice and use evidence to promote change and excellence.

<b>BSN Essentials</b>	<b>No of Points</b>	<b>Individual Score</b>	<b>Description</b>
Liberal Education for Baccalaureate Generalist Nursing Practice	6	83.3%	The need for an education that exposes nurses to multiple fields of study providing the foundation for a global perspective of society as well as high level thinking and acquisition of skills that can be applied to complex patient and system-based problems.
Basic Organization and Systems Leadership for Quality Care and Patient Safety	5	60.0%	The need for nurses to be able to understand power relationships and use decision-making and leadership skills to promote safe practice and quality improvement within health care systems.
Scholarship for Evidence-Based Practice	18	44.4%	The need for nurses to be able to understand the research process and base practice and clinical judgments upon fact-based evidence to enhance patient outcomes.
Clinical Prevention and Population Health	17	82.4%	The need for nurses to be able to identify health related risk factors and facilitate behaviors that support health promotion, and disease and injury prevention, while providing population-focused care that is based on principles of epidemiology and promotes social justice.
Baccalaureate Generalist Nursing Practice	4	75.0%	The need for nurses to be able to practice as a generalist using clinical reasoning to provide care to patients across the lifespan and healthcare continuum and to individuals, families, groups, communities, and populations.

# Score Explanation and Interpretation

## Individual Performance Profile

### ITEM SCORING

ATI follows NCSBN guidance for item scoring. Accordingly, each item is worth one or more points. Depending on the item-specific scoring method, a student's response may earn full, partial, or no points.

### INDIVIDUAL SCORE

The individual score is the number of points received divided by the number of points on the assessment. It is on a scale of 0% to 100%.

### TOPICS TO REVIEW

Based on the questions missed on this assessment, a listing of content areas and topics to review may be provided. A variety of learning resources may be used in the review process, including content, images, animations, and videos in ATI's Content Mastery Series® Review Modules, online practice assessments, and a focused review that is individualized to the questions missed.
