

N433 Exam 3 Concept Review

Material that is covered on the exam includes assigned readings in the text, ATI, lecture presentations, and your notes. Medication calculation will be on the exam (6%). Reviewing the care plans at the end of each chapter will assist you in identifying appropriate nursing actions in the given scenarios. This concept review is not all-inclusive but will help you focus on information for the exam.

Text	ATI
Ch. 37: Infection	Ch. 30: Skin Infections and Infestations Ch. 35: Immunizations Ch. 36: Communicable Diseases
Ch. 47: Immunologic Disorders	Ch. 38: HIV/AIDS pg. 187-189 (juvenile idiopathic arthritis)
Ch. 46: Hematology/Oncology	Ch. 21: Hematologic Disorders Ch. 39: Organ Neoplasms Ch. 40: Blood Neoplasms Ch. 41: Bone and Soft Tissue Cancers

Review Ch. 35 in your ATI book on immunizations

Infection - 25%:

1. Understand the definition of immunity and different types of immunity
2. Understand the components of the chain of infection
3. Variations in pediatric anatomy and physiology that makes them susceptible to infection
4. Know which isolation is appropriate for each disease
 - a. Box 37.4 pg. 1289
5. Nursing management of fever
6. Risk factors for CA-MRSA
7. Know the types of vector-borne illnesses
8. Know education for caregivers related to infectious disorders
9. Know S/S of Measles
10. Know S/S of Chickenpox
11. Know S/S of Rubella
12. Know S/S of Fifth's Disease
13. Nursing management/anticipatory guidance related to pediculosis capitis
14. Nursing management/anticipatory guidance related to scabies
15. Nursing management/anticipatory guidance related to ticks and tick bites

Immunologic Disorders - 19%:

1. Know contraindications to administering a live vaccine
2. Know which vaccines are considered live vaccines
3. Know at which ages children receive the meningococcal vaccine

4. Know stages of infectious disease
5. Warning signs of primary immunodeficiency
6. Know S/S of thrush
7. Know the most common food allergies and which foods to avoid in the first year
8. Implications for allergy to eggs
9. Latex allergy—who is at risk?
10. Emergency management of anaphylaxis

Hematology/Oncology - 48%:

1. Know interventions for lead levels
 - a. Table 46.4 pg. 1709
2. Know S/S of lead poisoning
3. Know what components of blood cells are affected by hematologic disorders
4. Complications of sickle cell anemia
5. Management of sickle cell anemia/vaso-occlusive crisis
6. Plan of care related to iron-deficiency anemia
 - a. Risk factors
 - b. Nursing implications
 - c. Sources of iron in diet
 - d. Iron administration
 - e. Monitoring labs
7. Know the S/S of leukemia
8. Know the nursing implications for a suspected Wilms' tumor
