

N321 Adult Health I

Clinical Reflection Form

Name: Karlie Roberts

Date: 2/27/23

Mid Term Journal

1. Discuss how you are feeling so far in clinical?  
So far I feel pretty good. Looking forward to finishing the assignments and getting to experience a nurses day with more than one patient and an assignment!
2. What have been good experiences?  
I have really enjoyed the ER. I like the nurses I have encountered and they are so open to questions.
3. Have there been any bad experiences? Could be you arrvous about a skill or communication?  
I wouldn't say I've had a bad experience. There has been a nurse that didn't care to have me as the student with her and wouldn't allow me to do anything.
4. Do you need to talk with anyone in private to discuss clinical?  
I feel confident so far. I know that Kristal and Gina both are here for me and I can go to them no matter what it is.
5. Is there anything else you would like to mention?  
There is nothing else about clinical I would like to mention.
