

N321 Adult Health I

Clinical Reflection Form

Name: Kaitlyn Loewenstein

Date: 2/28/2023

Mid Term Journal

1. Discuss how you are feeling so far in clinical?

I am feeling more confident in clinical and enjoy more this semester than I did last semester. I really like going to different floors and seeing more than med surg.

2. What have been good experiences?

My first time in the emergency room, I had a fantastic nurse who let me attempt 5 IVs. She was so supportive and patient with me. I got 4 of the 5 IVs and will remember her and my first IV.

3. Have there been any bad experiences? Could be you nervous about a skill or communication?

I had one nurse who was not very nice and just kind of ignored me but that was the first time where I had a nurse like that. That clinical day dragged because I did not get to do or see much.

4. Do you need to talk with anyone in private to discuss clinical?

No

5. Is there anything else you would like to mention?

No
