Management of Care (13 items)

Case Management (1 item)

Continuity of Care: Priority Action Prior to Discharging a Client to Home Care(Active Learning Template: Basic Concept)

Collaboration with Interdisciplinary Team (1 item)

Overview of Community Health Nursing: Community-Oriented Nursing(Active Learning Template: Basic Concept)

Concepts of Management (2 items)

Client Education: Identifying an Example of a Psychomotor Domain of Learning Activity(Active Learning Template: Basic Concept)

Community Assessment, Education, and Program Planning: Health Education Program Planning(Active Learning Template: Basic Concept)

Ethical Practice (1 item)

Overview of Community Health Nursing: Responding to Questions About a Client's Condition(Active Learning Template: Basic Concept)

Legal Rights and Responsibilities (1 item)

Epidemiology and Communicable Diseases: Nationally Notifiable Conditions(Active Learning Template: Basic Concept)

Establishing Priorities (2 items)

Emergency Preparedness: Identifying the Priority Client During Triage(Active Learning Template: Basic Concept)

Managing Client Care: Planning Order of Home Health Visits(Active Learning Template: Basic Concept)

Referrals (2 items)

Care of Specific Populations: Action to Take for a Client Who Is Homeless and Has Hypothermia(Active Learning Template: Basic Concept)

Care of Specific Populations: Planning Education for a Client Who Is a Migrant Farm Worker(Active Learning Template: Basic Concept)

Topics To Review Go to your Improve tab to access your Focused Review Experience

Advocacy (3 items)

- Factors Influencing Community Health: Use of an Interpreter to Advocate for Clients(Active Learning Template: Basic Concept)
- Overview of Community Health Nursing: Serving as an Advocate for the Community(Active Learning Template: Basic Concept)
- Therapeutic Communication: Responding to a Client Who Decides to Stop Taking Prescribed Medication(Active Learning Template: Basic Concept)

Safety and Infection Control (7 items)

Accident/Error/Injury Prevention (2 items)

- Osteoporosis: Primary Prevention Strategies(Active Learning Template: System Disorder)
- Pulmonary Embolism: Prevention Strategies Based on Activity Levels(Active Learning Template: Basic Concept)

Standard Precautions/Transmission-Based Precautions/Surgical Asepsis (3 items)

- Communicable Diseases: Teaching About Pertussis(Active Learning Template: Basic Concept)
- Epidemiology and Communicable Diseases: Preventing an Influenza Outbreak(Active Learning Template: Basic Concept)
- Hepatitis and Cirrhosis: Preventing Transmission of Hepatitis A in the Home(Active Learning Template: Basic Concept)

Home Safety (2 items)

- Home Safety: Assessing the Need for Home Modification(Active Learning Template: Basic Concept)
- Home Safety: Dietary Recommendations for a Client Who Is Immunocompromised(Active Learning Template: Basic Concept)

Health Promotion and Maintenance (6 items)

Developmental Stages and Transitions (1 item)

- Pain Management: Interventions During Injections for a Preschooler(Active Learning Template: Growth and Development)

Health Promotion/Disease Prevention (2 items)

- Community Assessment, Education, and Program Planning: Components of Community Assessment Data(Active Learning Template: Basic Concept)
- Community Assessment, Education, and Program Planning: First Action When Addressing Community Concern(Active Learning Template: Basic Concept)

Health Screening (2 items)

- Aggregates in the Community: Identifying Non-Modifiable Risk Factors(Active Learning Template: Basic Concept)
- Head and Neck: Conducting the Rinne Test(Active Learning Template: Diagnostic Procedure)

Lifestyle Choices (1 item)

- Complementary, Alternative, and Integrative Therapies: Herbal Medication Interactions(Active Learning Template: Medication)

Psychosocial Integrity (10 items)

Abuse/Neglect (2 items)

- Care of Specific Populations: Secondary Prevention(Active Learning Template: Basic Concept)
- Family and Community Violence: Risk Factors for Partner Violence(Active Learning Template: Basic Concept)

Cultural Awareness/Cultural Influences on Health (1 item)

- Factors Influencing Community Health: Elements of a Cultural Assessment(Active Learning Template: Basic Concept)

Coping Mechanisms (1 item)

- Care of Specific Populations: Providing Information About Alcohol Use Disorder Treatment(Active Learning Template: System Disorder)

Grief and Loss (2 items)

- Care of Clients Who are Dying and/or Grieving: Identifying the Stages of Grief(Active Learning Template: Basic Concept)
- Coping: Findings Indicating Effective Coping(Active Learning Template: Basic Concept)

Family Dynamics (1 item)

- Overview of Community Health Nursing: Respecting Client Rights (Active Learning Template: Growth and Development)

Substance Use and Other Disorders and Dependencies (2 items)

Topics To Review Go to your Improve tab to access your Focused Review Experience

Care of Specific Populations: Substance Use Disorder Support Programs(Active Learning Template: Basic Concept)

Medications for Substance Use Disorders: Caring for a Client Who Is Recovering From Alcohol Use Disorder(Active Learning Template: System Disorder)

End-of-Life Care (1 item)

Practice Settings and Nursing Roles in the Community: Evaluating Understanding About Palliative Care(Active Learning Template: Basic Concept)

Basic Care and Comfort (1 item)

Non-Pharmacological Comfort Interventions (1 item)

Complementary, Alternative, and Integrative Therapies: Identifying Contraindications to Alternative Therapies(Active Learning Template: Basic Concept)

Outcomes

Nursing Process	No of Points	Individual Score	Description
RN Assessment	6	0.0%	The assessment step of the nursing process involves application of nursing knowledge to the collection, organization, validation and documentation of data about a client's health status. The nurse focuses on the client's response to a specific health problem including the client's health beliefs and practices. The nurse thinks critically to perform a comprehensive assessment of subjective and objective information. Nurses must have excellent communication and assessment skills in order to plan client care.
RN Analysis/Diagnosis	11	18.2%	The analysis step of the nursing process involves the nurse's ability to analyze assessment data to identify health problems/risks and a client's needs for health intervention. The nurse identifies patterns or trends, compares the data with expected standards or reference ranges and draws conclusions to direct nursing care. The nurse then frames nursing diagnoses in order to direct client care.
RN Planning	11	36.4%	The planning step of the nursing process involves the nurse's ability to make decisions and problem solve. The nurse uses a client's assessment data and nursing diagnoses to develop measurable client goals/outcomes and identify nursing interventions. The nurse uses evidenced based practice to set client goals, establish priorities of care, and identify nursing interventions to assist the client to achieve his goals.
RN Implementation/Therapeutic Nursing Intervention	17	23.5%	The implementation step of the nursing process involves the nurse's ability to apply nursing knowledge to implement interventions to assist a client to promote, maintain, or restore his health. The nurse uses problem-solving skills, clinical judgment, and critical thinking when using interpersonal and technical skills to provide client care. During this step the nurse will also delegate and supervise care and document the care and the client's response.
RN Evaluation	5	60.0%	The evaluation step of the nursing process involves the nurse's ability to evaluate a client's response to nursing interventions and to reach a nursing judgment regarding the extent to which the client has met the goals and outcomes. During this step the nurse will also assess client/staff understanding of instruction, the effectiveness of interventions, and identify the need for further intervention or the need to alter the plan.

Priority Setting	No of Points	Individual Score	Description
	8	12.5%	Ability to demonstrate nursing judgment in making decisions about priority responses to a client problem. Also includes establishing priorities regarding the sequence of care to be provided to multiple clients.

Thinking Skills	No of Points	Individual Score	Description
Foundational Thinking	7	14.3%	The ability to comprehend information and concepts. Incorporates Blooms Taxonomy categories of Remembering and Understanding.
Clinical Application	43	27.9%	The ability to apply nursing knowledge to a clinical situation. Incorporates Blooms Taxonomy category of Applying.

NCLEX®	No of Points	Individual Score	Description
RN Management of Care	14	7.1%	The nurse coordinates, supervises and/or collaborates with members of the health care to provide an environment that is cost-effective and safe for clients.
RN Safety and Infection Control	10	30.0%	The nurse uses preventive safety measures to promote the health and well-being of clients, significant others, and members of the health care team.
RN Health Promotion and Maintenance	12	50.0%	The nurse directs nursing care to promote prevention and detection of illness and support optimal health.
RN Psychosocial Integrity	11	9.1%	The nurse directs nursing care to promote and support the emotional, mental and social well-being of clients and significant others.
RN Basic Care and Comfort	1	0.0%	The nurse provides nursing care to promote comfort and assist client to perform activities of daily living.
RN Physiological Adaptation	2	100.0%	The nurse manages and provides nursing care for clients with an acute, chronic or life threatening illness.

QSEN	No of Points	Individual Score	Description
Safety	10	40.0%	The minimization of risk factors that could cause injury or harm while promoting quality care and maintaining a secure environment for clients, self, and others.
Patient-Centered Care	14	14.3%	The provision of caring and compassionate, culturally sensitive care that is based on a patient's physiological, psychological, sociological, spiritual, and cultural needs, preferences, and values.
Evidence Based Practice	22	27.3%	The use of current knowledge from research and other credible sources to make clinical judgments and provide client-centered care.
Quality Improvement	1	100.0%	Care-related and organizational processes that involve the development and implementation of a plan to improve health care services and better meet the needs of clients.
Teamwork and Collaboration	3	0.0%	The delivery of client care in partnership with multidisciplinary members of the health care team, to achieve continuity of care and positive client outcomes.

NLN Competency	No of Points	Individual Score	Description
Human Flourishing	16	12.5%	Human flourishing is reflected in patient care that demonstrates respect for diversity, approaches patients in a holistic and patient-centered manner, and uses advocacy to enhance their health and well-being.
Nursing Judgment	29	27.6%	Nursing judgment involves the use of critical thinking and decision making skills when making clinical judgments that promote safe, quality patient care.
Professional Identity	4	50.0%	Professional identity reflects the professional development of the nurse as a member and leader of the health care team who promotes relationship-centered care, and whose practice reflects integrity and caring while following ethical and legal guidelines.
Spirit of Inquiry	1	100.0%	A spirit of inquiry is exhibited by nurses who provide evidence based clinical nursing practice and use evidence to promote change and excellence.

BSN Essentials	No of Points	Individual Score	Description
Liberal Education for Baccalaureate Generalist Nursing Practice	6	33.3%	The need for an education that exposes nurses to multiple fields of study providing the foundation for a global perspective of society as well as high level thinking and acquisition of skills that can be applied to complex patient and system-based problems.
Basic Organization and Systems Leadership for Quality Care and Patient Safety	1	100.0%	The need for nurses to be able to understand power relationships and use decision-making and leadership skills to promote safe practice and quality improvement within health care systems.
Scholarship for Evidence-Based Practice	21	28.6%	The need for nurses to be able to understand the research process and base practice and clinical judgments upon fact-based evidence to enhance patient outcomes.
Interprofessional Communication and Collaboration	2	0.0%	The need for nurses to be able to function as a member of the healthcare team while promoting an environment that supports interprofessional communication and collaboration with the goal of providing patient-centered care.
Clinical Prevention and Population Health	13	23.1%	The need for nurses to be able to identify health related risk factors and facilitate behaviors that support health promotion, and disease and injury prevention, while providing population-focused care that is based on principles of epidemiology and promotes social justice.
Professionalism and Professional Values	1	0.0%	The need for nurses to be able to practice nursing in a professional manner while providing patient-centered care that is caring, respects diversity, and is governed by legal and ethical tenets.
Baccalaureate Generalist Nursing Practice	6	16.7%	The need for nurses to be able to practice as a generalist using clinical reasoning to provide care to patients across the lifespan and healthcare continuum and to individuals, families, groups, communities, and populations.

Score Explanation and Interpretation

Individual Performance Profile

ITEM SCORING

ATI follows NCSBN guidance for item scoring. Accordingly, each item is worth one or more points. Depending on the item-specific scoring method, a student's response may earn full, partial, or no points.

INDIVIDUAL SCORE

The individual score is the number of points received divided by the number of points on the assessment. It is on a scale of 0% to 100%.

TOPICS TO REVIEW

Based on the questions missed on this assessment, a listing of content areas and topics to review may be provided. A variety of learning resources may be used in the review process, including content, images, animations, and videos in ATI's Content Mastery Series® Review Modules, online practice assessments, and a focused review that is individualized to the questions missed.
