

Legacy Project: HOPE of East Central Illinois

HOPE of East Central Illinois is an organization dedicated to advocating and supporting victims of domestic abuse. HOPE provides a wide range of services and promotes diversity and equality. The mission of HOPE is to empower persons to live independent nonviolent lives through the provision of housing, outreach, prevention, and education. During our time at HOPE, we learned about its history and the many resources available to its residents. To contribute to their organization, the group mulched the playground to ensure the children's safety and organized the pantry. The pantry includes food, kitchen, office, bedroom, and bathroom supplies. The community can help with donations and educate themselves about domestic violence.
