

Survivors Resource Center

Clinical Day: 02/09/23

1. How does the clinical site relate to Population/Global Health?
 - This site helps the community by helping victims of sexual assault.
2. How were you an engaged nursing professional today?
 - This nursing student felt engaged at this site today by listening to some of the stories shared, and communicating with staff on the way Survivors Resource Center works.
3. How did you contribute to the service of the community today?
 - This nursing student put together different packages that had your everyday personal hygiene needs. This nursing student put together folders that had other resources in them for the individuals that needed more support.
4. Name 3 ways this clinical site impacts the community health?
 - The Survivors Resource Center advocates for their patients, reaches out to the families when needed and provides a safe place for them when they need it.
5. Name 1 way this site could better serve the community and why?
 - The Survivors Resource Center could reach out to the community about more funding and hold more events to allow for funding to come in.
6. What health risks are experienced by the population served by today's clinical site?
 - Many patients seen at the Survivors Resource Center have been through traumas, domestic abuse, STDs, unwanted pregnancies, and sexual assault.
7. Has this project changed you or your thinking & how it has changed you?
 - Yes, this project has changed me. This project really helped me understand the importance behind sexual assault and how often it is occurring in our community.
