

Salt & Light

1. How does the clinical site relate to Population/Global Health?

- a. The public and vulnerable can get food, clothing, and other essentials from this clinic.

2. How were you an engaged nursing professional today?

- a. By assisting with the organization and sorting of things throughout the store as well as the preparation of items for placement on the floor, I demonstrated my nursing expertise.

3. How did you contribute to the service of the community today?

- a. I helped sort through donated items, moved boxes of donated candy, adjusted books on the bookshelf, satisfied customers, and put donated clothes on the racks.

4. Name 3 ways this clinical site impacts the community health?

- a. Anyone can work at this clinical site and accrue credits to use in the store. Also, the community can get food, employment, and clothing from this place.

5. Name 1 way this site could better serve the community and why?

- a. This site could get their children center approved to have workers drop their children off while they work.

6. What health risks are experienced by the population served by today's clinical site?

- a. Some health risks include infection, malnutrition, and poverty,

7. Did this project change you or your thinking, and how did it change you?

- a. This site help me view this community from a different perspective. Nursing can be done in many forms, and by volunteering, I realized I could serve the community by helping workers in Salt & Light. Nursing is not about giving medication, it can also be done by volunteering to help a community.
